Investor Day

Esther Alcocer Koplowitz

Investor Day

Ing. Carlos Slim Helú

Grupo Carso principles adopted by FCC

Investor Day

- 1** Do not sell below cost.
- 2** Simple structures, organizations with minimal hierarchies, human development and internal training of executive functions. Flexibility and speed in decision making. Operate with the advantages of small business, which make big businesses great.
- 3** Maintaining austerity in good times strengthens, capitalizes and accelerates the development of the company, and averts the bitterly drastic adjustments in times of crisis.
- 4** Always active in the modernization, growth, training, quality, simplification and relentless improvement of manufacturing processes. Increase productivity, competitiveness and reduce costs, always guided by the highest global benchmarks.
- 5** The company should never be limited to the extent of the owner or administrator. We should not feel big in our small pens. Minimum investment in non-productive assets.
- 6** There is no challenge that we cannot achieve by working together, with clear objectives and knowing the tools.
- 7** The money that leaves the company evaporates. So we reinvest profits.
- 8** Corporate creativity applies not only to businesses but also to the solution of many problems of our countries, and we do that through the Foundations of the Group.
- 9** Firm and patient optimism always pays off.
- 10** All the times are good for those who can work and have the means to do so.
- 11** Our premise is and has always been that we leave with nothing; we can only do things while we are alive and that entrepreneurs are creators of the wealth they temporarily manage.

End-to-end water management

Investor Day

Outlook & Strategic vision

Medium-long term growth due to:

- Urban demographic pressure
- Increasingly strict environmental regulations
- Water stress and need for alternative sources

Spain

- Strengthen current market share in municipal.
- New opportunities in waste water treatment, to fill the gap between local and EU legislation, and in reuse

International

Europe

MENA

America

- Expansion in municipal concessions with reliable regulatory models, in Europe and America.
- Expand in BOT projects in MENA and America.

End-to-end water management

Investor Day

- < **Agreement** with IFM, soon to acquire 49% of the area parent company for 1,024 M€, enhancing growth potential.
- < **FCC** keeps control and operating responsibility.

Construction

Investor Day

Steps taken

- **New parameters** for bidding for projects: profitability and scale.
- **Flexible operational structure**
- **Fulfil contracts**, even if unprofitable, to minimise the economic impact and accelerate completion.
- **Reactivate projects that are suspended**, rebuild relationship with client.
- **Since 2016, alliance between FCC and CICSА** with the creation of FCC Américas (owned 50:50, consolidated by FCC Construction)

Construction

Investor Day

Order intake

◀ **The new contracting** parameters installed have allowed an **8.7% increase in backlog** in 1H 18 after several years of decline in the infrastructure sector.

Contract in Ireland to build **Dublin** Institute of Technology Campus **for 220 M€**.

Project to expand sections I and II of the Inter-American Highway in **Panama for 892 M\$**.

Construction

Investor Day

Outlook & Strategic vision

Emerging economies have persistent gap in infrastructures

that are critical for attaining growth and sustainable competitiveness.

Growing need to upgrade and replace existing assets in Spain, after sharp cutbacks in investment, and in other European countries.

Spain

- New railway network and communication corridors
- Focus on big, technically complex contracts
- Increase efficiency and operating resources in industrial construction and maintenance

International

LATAM

MENA

Europe

- Alliance with Carso Infraestructuras for Latin America
- Selective participation in projects in the Middle East
- Asset replacement in Europe
- Export industrial know-how to geographies with experience and synergies
- Analyse opportunities in US government spending plan

Concessions

Investor Day

Portfolio of
transport infrastructure concessions

10

in operation

Spain

- Urbicsa (29%)
- Mallorca health centres (82.5%)
- Grupo Cedinsa (34%)
- Conquense highway (100%)
- Ibiza - San Antonio highway (50%)
- Murcia light railway (50%)
- Zaragoza light railway (16.60%)
- World Trade Centre Barcelona (16.52%)
- Barcelona Metro line 9 (49%)
- Torredembarra Port (15.7%)

International

- Lima Metro line 2, Peru (18.25%)
- Haren prison, Belgium (15%)

Concessions

Investor Day

Outlook & Strategic vision

◀ **Joint development** with FCC Construction of greenfield projects in markets of strategic interest with a sound regulatory framework, using a specialised management team.

Spain

Maximise value and stake in existing concession and manage contracts to enhance cash flow.

International

Compete for projects in sound markets with growth prospects where FCC has a presence, leveraging synergy with Grupo Carso.

◀ **Use FCC's competitive advantages in infrastructure design, development and** funding to enhance operating profitability and quality.
