FCC Group

1.7. Integrated Offer

Advanced technology

- Own technology for waste collection and street cleansing.
- Leaders in waste recycling and energy recovery systems
- Experts in providing solutions at all stages of the water management cycle for all uses: human, agricultural and industry, meeting the needs of institutions and public and private organizations.
- Specialists in bridges and ports with a high technical complexity
- Innovative processes for high speed lines, metro and tunnels.
- Specialists in turnkey projects in the industrial sector.

Integrated range of services throughout the whole value chain

Advanced technology and integrated range of products and services with high added value in all of its business areas

FCC Group

1.8. Value Creation

Our leadership position strengthens our capacity to take the demand of our activities

Environment

- The Circular Economy Package plans to require member states to recycle at least 50% of municipal waste by 2020 and 65% by 2030 (70% for packaging waste)
- Potential for international organic growth (America, Central Europe)

Water

- Long-term positive forecasts due to environmental and regulatory trends
- Expected increase in water consumption for industrial and residential use in Spain
- Potential for growth in Latam and MENA

Construction

- Need for infrastructures in emerging markets
- Cyclical business in Spain after fiscal consolidation

Cement

- Sustained expansion in national consumption. Consolidation (reinforcement) of a new cycle
- Expected stabilisation in Tunisia

FCC Group
