1.6. Integrated Offer

Advanced technology

- Own technology for waste collection and street cleansing
- Leaders in waste recycling and energy recovery systems
- Experts in providing solutions at all stages of the water management cycle for all uses: human, agricultural and industry, meeting the needs of institutions and public and private organizations
- Specialists in bridges and ports with a high technical complexity
- Innovative processes for high speed lines, metro and tunnels
- Specialists in turnkey projects in the industrial sector

Comprehensive range of services throughout the whole value chain

Advanced technology and integrated range of products and services with high added value in all of its business areas

FCC Group

1.7. Value creation

Our incumbent position enhances our ability to benefit from the strong fundamentals of our core business areas

Environment

- Positive long-term outlook due to regulatory developments and environmental considerations
- EU Waste Framework Directive requires member states to recycle at least 55% of their municipal solid waste by 2025 and 65% by 2035 plus landfilling up to 10% also in 2035
- New opportunities offered by expected reforms in Spain on recycling and composting
- Organic international expansion potential, particularly in America, UK and some Central European countries

Water

- Positive long-term outlook due to regulatory developments and environmental considerations
- Increase in water consumption, both industrial and residential, in Spain with economic recovery
- International growth and expansion that responds to global needs for clean water and sanitation for all, with the right people and technology.
- Growth potential in Latam, MENA and America

Construction & Cement

- Continued infrastructure gap in selected emerging markets providing further upside
- Potential growth in Spain based on Next Generation EU plan linked to clean energy, efficiency and related facilities.

Real Estate

- Combined recurring rental income with a focus on improving its sustainability profile with the development of real estate assets (build-to-rent) and residential housing in high-demand areas based on active land management.

FCC Group

2.2. Water

Spain. Main references

Mar de Alborán Desalination Plant (Níjar-Almería)

The previous Rambla Morales Desalination Plant. Acquired in 2019 by Servicios Hídricos.
The infrastructure is currently being rehabilitated and there are plans to build a photovoltaic plant.

2.2. Water

Spain. Main references

Ibiza Desalination (Ibiza, Santa Eulalia and San Antonio)

Management of the 3 desalination plants on the Ibiza island, with a production capacity of 45,000 m³/day, supplying 10 million m³ of water per year. Population: 150,000 inhabitants. Client: Agencia Balear del Agua (ABAQUA)

2.2. Agua

España. Principales referencias

Oviedo

Único municipio en Asturias que cuenta con tratamiento del agua potable con ozono para generar 1.500 l/s de agua de gran calidad. Gestión desde 1996. Población: 220.000 hab. Cliente: Ayuntamiento de Oviedo. Sede del laboratorio de referencia de Aqualia en España

2.2. Water

Spain. Main references

Salamanca

Pioneers in Spain in the application of R+D+i for the elimination of nutrients in return water from purification. Management since 1997. Population: 200,000 inhabitants. Client: Salamanca City Council.

2.2. Water

Spain. Main references

Vigo

Managing, since 1991, the largest hydraulic infrastructure in Galicia.
Population: 218,000 inhabitants. Client: Vigo City Council.

2.2.Water

Latam. Main references

Aqueduct of Queretaro / Mexico

Service: Pumping, Water Treatment, Gravity flow, Distribution and Storage.

Extension: 128 km of pipeline, reservoir, tunnel (4.8 km), pumps, tanks and water treatment plant.

Type of project: BOT (20 years). Client: Querétaro State Water Commission. Capacity: 130,000 m3/day.

Population: 900,000 inhabitants. Managed since 2011.

2.2. Water

Latam. Main references

Aqueduct of El Realito / Mexico

Service: Piping and purification of water from El Realito dam to San Luis de Potosí.
Extension: 132 km of pipes, pumps, tanks and water treatment plant (86,400 m³/d).
Type of project: BOT (25 years). Client: San Luis de Potosí State Water Commission.
Population: 430,000 inhabitants. Managed since 2011.

2.2. Water

Latam. Main references

End-to-end water Cycle / Colombia

Management of the end-to-end water cycle since 2019 in 13 municipalities, providing service to more than **450,000 inhabitants**. 12 municipalities are located in the department of Córdoba and the last one in Cúcuta, Norte de Santander.

2.2. Water

Latam. Main references

El Salitre / Colombia

Service: Expansion and improvement of the El Salitre Wastewater Treatment Plant, in Bogotá.
Capacity: **600,000 m³/day**. Serving more than **3 million inhabitants**.

2.2. Water

Africa. Main references

Desalination Plant of Mostaganem / Argelia

Type of project: BOT (25 years). Client: SONATRACH/AEC.

Capacity: **200,000 m3/d**. Serving more than **1.2 million of people**

2.2. Water

Africa. Main references

Desalination Plant in El Alamein / Egypt

Capacity: **150,000 m³/d**. Service to **1 million inhabitants**.

Client: **MINISTRY OF DEFENSE**.

2.2. Agua

Europa. Principales referencias

República Checa - SmVaK

Proyecto: Gestión Integral del Agua es el principal operador de las regiones de Moravia y Silesia. SmVak es propietaria de las infraestructuras (siendo por tanto una actividad de duración indefinida). Es uno de los pocos casos existentes de suministro de agua transfronterizo, dando servicio por medio de sus infraestructuras a **100.000 habitantes** en la vecina Polonia.

SmVaK, filial de Aqualia cuenta con **1.200.000 usuarios** y posee una red de suministro que mide **4.627 kilómetros** y una red de alcantarillado de **1.379 kilómetros**.

2.2. Water

Europe. Main references

France - SEFO / CEG

Serving **140,000 inhabitants** in the Île de France region (France):
8 supply management contracts and 2 sanitation contracts through the companies SEFO and CEG. Management of 700 kilometers of distribution networks, 32 water storage tanks and 70 pumping stations, as well as 200 kilometers of sewage networks.

2.2. Agua

Europa. Principales referencias

Gestión 16 municipios Île-de-France (París) / Francia

Gestión del abastecimiento de agua de 16 municipios. Concesión del suministro de agua potable durante 6 años y por un importe cercano a los 30 millones de euros.

2.2. Agua

Europa. Principales referencias

Georgia GGU / GCAP

Red: 7 plantas Potabilizadoras (ETAP), 1 gran Planta de Tratamiento de Aguas Residuales (EDAR), 58 Estaciones de bombeo, 118 depósitos y 4.300 kilómetros de redes de distribución y 1.700 km. de alcantarillado.

Suministro: 240 MW en 9 plantas mayoritariamente hidroeléctricas, algunas de ellas asociadas a los activos del ciclo del agua (150 MW) y otras independientes (90 MW).

Main references / Office Renting

Torre Realia / The Icon

The world's first leaning office tower is part of the nerve centre of Madrid's economic activity. Designed by the first ever Pritzker Prize winner, Philip Johnson, and his partner John Burgee, its post-modernist style and its 15° tilt make it an essential part of Madrid's skyline.

Total surface area: 28,424 m²

Storeys: 24 Floors + 3 Underground floors

Parking capacity: 351 Spots

Torre Realia BCN

Prominent building in the Plaza de Europa Business Area. Designed by one of the world's most influential architects, Japan's Toyo Ito (Pritzker Prize 2013) in collaboration with the b720 firm, it forms a unique architectural ensemble in its union with the Hotel Porta Fira. Standing 110 m high, it is one of the tallest buildings in the city.

Total surface area: 31,960 m²

Storeys: 22 Floors + Basement

Parking capacity: 399 Spots

2.5. Real Estate

Main references / Office Renting

The building was completely refurbished in 2012, creating an avant-garde space inside with exclusive materials and design. It boasts a spectacular, modern and unique architecture, with a main façade made of glass on an aluminium structure.

Total surface area: 8,800 m²

Available storeys: 11 Floors

Parking capacity: 140 Spots

It is one of the most representative buildings of modern architecture in the centre of the Prime area of the capital. Its four glazed façades with curtain wall system give prominence to natural light, creating luminous interior spaces. The rooms are characterised by their spaciousness, open-plan design and cutting-edge technology.

Total surface area: 4,590 m²

Available storeys: Ground floor + 7

Parking capacity: 66 Spots

2.5. Real Estate

Main references / Shopping Malls

The Plaza Nueva Shopping Complex is designed in the form of a square and is being built to complete the commercial offer in the south of Madrid and to provide a response to the strong demand from a catchment area of more than one million people.

Gross Leasable Area (GLA): 52,636 m²
Annual visitors: 6.4 million
Parking capacity: 2,987 spots
Shops: 34

This modern shopping complex, with four floors and three basement car parks, with more than 6 million visitors a year, has become the nerve centre of social activity in Guadalajara. Ferial Plaza has a wide and selected commercial and leisure offer and a magnificent location with great visibility from the A2.

Gross Leasable Area (GLA): 32,523 m²
Annual visitors: more than 6 million

- *This document may contain forward-looking statements about intentions, expectations or predictions of the FCC Group on the date of issue, relating to various aspects such as the growth of the different lines of business, results of the FCC Group or other aspects of the business and its status.*
- *These forward-looking statements or predictions do not constitute —by their very nature— guarantees of future compliance, as they are dependent on risks, uncertainties, and other significant factors that could cause the actual developments and results to differ materially from those expressed in the said intentions, expectations or predictions.*
- *This document does not constitute an offering or an invitation to acquire or subscribe shares in accordance with Act 24/1988, of 28 July, on the Securities Market, Royal Decree-Act 5/2005, of 11 March, and/or Royal Decree 1310/2005, of 4 November, and their implementing regulations.*
- *This statement should be taken into account by all persons or institutions who may have to take decisions or prepare or disseminate opinions relating to securities issued by the FCC Group. Such persons are invited to consult the documentation and public information communicated or registered by the FCC Group with the Spanish National Securities Market Commission.*
- *This document contains financial information that has been audited and prepared in accordance with International Financial Reporting Standards (IFRS).*
