C.1.5 Indicate whether the company has diversity policies in place in relation to the company's Board of Directors in terms of issues including age, gender, disability, or professional training and experience. SMEs, pursuant to the definition contained in the Account Audit Law, shall report, as a minimum, the policy established in relation to gender diversity.

Yes ☒ No ☐ Partial policies ☐

If so, describe these diversity policies, their objectives, the measures and the way in which they were applied and their results during the business year. The specific measures adopted by the Board of Directors and the Appointments and Remuneration Committee to achieve a balanced and diverse presence of directors shall also be indicated.

In case the company has no diversity policy in place, explain the reasons for this.

Description of the policies, objectives, measures and manner in which they have been applied, as well as the results obtained
Article 38.4.h of the Rules of the Board establishes, in accordance with the duties of the Appointments and Remuneration Committee, the following: "Assist the Board in its role of ensuring that the selection procedures of its members favour diversity of gender, experience and knowledge and do not suffer from implicit biases that may imply any discrimination and, in particular, that facilitate the selection of female Directors, so that the Company deliberately seeks and includes among the potential candidates, women who meet the intended professional profile, with the Board having to explain, where applicable, through the Annual Corporate Governance Report, the reason for the scant or non-existent number of female Directors and the initiatives taken to correct this situation. For the purposes of the foregoing, it must establish a representation objective for the less represented gender in the Board of Directors and prepare guidelines on how to achieve this aim". In 2019, FCC renewed its commitment to the Diversity Charter for the period 2019-2021, a voluntary code for the promotion of the core Equality principles. The initiative, promoted by the Directorate of Justice at the European Commission as part of the development of its anti-discrimination policies, contemplates the implementation of inclusion policies and non-discrimination programmes at signatory companies.

C.1.6 Explain the measures that, where appropriate, the Appointments Committee may have agreed to ensure the selection procedures do not suffer from implicit biases that prevent the selection of female directors, and to ensure the company deliberately seeks and includes among the potential candidates, women who meet the professional profile sought and make it possible to achieve a balanced presence of women and men. Also indicate whether these measures include encouraging the company to have a significant number of female senior executives:

Explanation of the measures
Article 38.4.h of the Rules of the Board establishes, in accordance with the duties of the Appointments and Remuneration Committee, the following: "Assist the Board in its role of ensuring that the selection procedures of its members favour diversity of gender, experience and knowledge and do not suffer from implicit biases that may imply any discrimination and, in particular, that facilitate the selection of female Directors, so that the Company deliberately seeks and includes among the potential candidates, women who meet the intended professional profile, with the Board having to explain, where applicable, through the Annual Corporate Governance Report, the reason for the scant or non-existent number of female Directors and the initiatives taken to correct this situation. For the purposes of the foregoing, it must establish a representation objective for the less represented gender in the Board of Directors and prepare guidelines on how to achieve this objective". The Appointments and Remuneration Committee has not established, to date, specific additional measures to those contained in Article 38.4.h of the Board's Regulation, nor objectives other than those pertaining to the current situation. The percentage of female directors (4) on the Board of Directors is 28.57 percent.

When, despite the measures adopted, as applicable, the number of female directors or senior executives is low or zero, explain the reasons that justify this:

Explanation of the reasons
In the 2020 business year, no vacancy has been filled in any senior management position in the FCC Group, which is why it has not been feasible to hire or appoint any senior executives.

C.1.7 Explain the conclusions of the Appointments Committee on the verification of compliance with the director selection policy. And in particular, on how this policy promotes the objective that in 2020, female directors will account for at least 30% of the total members of the Board of Directors.

At the General Shareholders' Meeting of 28 June 2016, four new directors were appointed at the proposal of the controlling shareholder, Inversora Carso, in use of the powers granted in the shareholder agreement of 25 February 2016. The mandates of two other directors were also renewed at the aforementioned meeting.

On 12 September 2017, the Board of Directors appointed Pablo Colio Abril as CEO by co-option. Subsequently, on 28 June 2018, the General Shareholders' Meeting agreed to appoint Pablo Colio Abril, a member of the Board of Directors, as an executive director.

In all six cases, the Appointments and Remuneration Committee issued a favourable report to the Board of Directors on the suitability of the directors.

To this end, the Appointments and Remuneration Committee has not established, to date, objectives other than those pertaining to the current situation or additional measures to those contained in Article 38.4.h of the Board's Regulation.

As at 31 December 2020, the representation of female directors on the Board of Directors of FCC, came to 28.57 percent, with Esther Alcocer Koplowitz serving as its non-executive Chairwoman.

Article 23 of the Rules of the Board of Directors states that:

1. As part of his/her duty to avoid the conflicts of interests indicated in section 2.e) of the preceding article, the Director shall refrain from: a) Undertaking transactions with the Company or with Group Companies, except in the case of ordinary transactions, carried out under standard conditions for customers and of limited relevance, including those for which information is not necessary to express the true image of equity, of the financial situation and the results of the Company. b) Using the name of the Company or invoking his/her status as a director to unduly influence the execution of private transactions. c) Making use of social assets, including confidential information on the Company, for private purposes. d) Taking advantage of the Company's business opportunities. e) Obtaining advantages or remuneration from third parties other than the Company and its Group associated with the performance of their duties, unless they are a mere courtesy. f) Performing activities on their own account or on behalf of others that involve effective competition, whether current or potential, with the Company or that, in any other way, place them in a permanent conflict with the interests of the Company.
2. The above provisions shall also apply in the event that the beneficiary of the prohibited acts or activities is a person linked to the director.
3. In any case, directors shall notify the Board of Directors, through the Corporate Responsibility Department or any other department that may replace it, with sufficient notice, of any direct or indirect conflict of interests that they or persons linked to them may have with the interests of the Company or those of the group of companies that comprise the FCC Group or its related companies.
4. The Company may waive the prohibitions contained in this article in unique cases, allowing the director or related person to perform a specific transaction with the Company, the use of certain social assets, the use of a specific business opportunity, obtaining an advantage or remuneration from a third party.
5. This authorisation shall be agreed by the General Shareholders' Meeting when the intention is to waive the prohibition on obtaining an advantage or remuneration from third parties, involves a transaction worth more than ten percent (10%) of the Company's social assets or concerns the obligation to not compete with the Company. In the latter case, the waiver may only be offered in the event that the Company is expected to suffer no damages or that the damages will be offset by the advantages expected to be obtained from the waiver, and the waiver shall be granted by express and separate consent of the General Shareholders' Meeting.
6. In the other cases to which the prohibitions in this article apply, authorisation may also be granted by the Board of Directors, subject to a favourable report from the Appointments and Remuneration Committee, provided that the independence of the members granting this authorisation is guaranteed with respect to the relieved director or the related person. In addition, it will be necessary to ensure that the authorised transaction protects social assets from harm or, where appropriate, they are undertaken subject to market conditions, and the transparency of the process. The affected directors or those representing or associated with the affected shareholders shall refrain from participating in the deliberation and voting process concerning the resolution in question. Only transactions that simultaneously meet the three (3) following characteristics shall be exempted from the authorisation required from the Board of Directors referred to in the paragraph above: a) that are undertaken as part of contracts whose conditions are standardised and are applied en masse to a high number of customers; b) that are executed at generally established prices or tariffs by those who act as suppliers of the asset or service in question; and c) that its value does not exceed one percent (1%) of the Company's annual income.

7. In any case, conflicts of interest incurred by the directors shall be included in the report, under the terms established by Law.

E RISK CONTROL AND MANAGEMENT SYSTEMS

E.1 Explain the scope of the Company's Risk Control and Management System, including those of a fiscal nature.

The FCC Group Risk Management Model has been designed with the aim of identifying and assessing the potential risks that could affect the Group's different units, as well as establishing mechanisms incorporated into the organisation's processes that make it possible to manage risks within the accepted levels, providing the Board of Directors and Senior Management with reasonable assurance regarding the achievement of the main objectives defined. This Model applies to all FCC Group companies, as well as to those affiliates where FCC has effective control, promoting the development of work frameworks that enable suitable risk control and management in those companies where effective control is not available.

This model is essentially based on the integration of a risk-opportunity vision and the assignment of responsibilities that, together with the segregation of duties, enable the follow-up and control of risks, consolidating a suitable control environment.

The activities included in the FCC Group's Risk Management Model include the assessment of risks, including tax risks, in terms of impact and probability of occurrence, giving rise to Risk Maps, and subsequently the establishment of prevention and control activities to mitigate the effect of such risks. In addition, this Model includes the establishment of reporting flows and communication mechanisms at different levels, which allow both decision-making and its review and continuous improvement.

The FCC Group also has a Criminal Prevention Model, developed, among other aspects, through a specific matrix of risks and controls. Its integration into the organisation's processes contributes to strengthening the control environment. This is in addition to a Tax Code of Conduct and a Tax Control Framework Standard, in which the process of identifying and assessing tax risks and assigning responsibilities for both the management and reporting of these risks is implemented.

E.2 Identify the bodies at the Company responsible for the development and execution of the Risk Management System, including the tax risk management system.

The Board of Directors is responsible for approving the FCC Group control and risk management policy, identifying the main risks identified by the company and implementing and monitoring the appropriate internal control and information systems, with a view to ensuring both the future viability and competitiveness of the Group, adopting the most relevant resolutions to implement them in the best possible way.

Furthermore, it is the responsibility of the Audit and Control Committee to supervise and analyse the effectiveness of the internal control and risk control and management policy, ensuring that it identifies:

- The different types of risks to which the Group is exposed, including financial or economic risks, contingent liabilities and other off-balance sheet risks.
- The definition of the level of risk that the Group considers acceptable.
- The measures planned to mitigate the impact of the risks identified, should they materialise.
- The information and internal control systems that will be used to control and manage the aforementioned risks, including contingent liabilities or off-balance sheet risks, and submit them to the Board for approval.

In this connection, the FCC Group Risk Management Model is based on the establishment of three levels of risk management and internal control, the first two residing with the business units and the third with the corporate areas.

The first level is assumed by the operating lines of the business unit, which act as risk generators and have the responsibility of managing, monitoring and adequately reporting the risk generated, including tax risk.

The second level, also assumed by the business units, consists of support, control and supervision teams, ensuring effective control and adequate risk management, including tax. Within this level, the management area of each business unit is responsible for the implementation of the Risk Management Model, including those risks related to financial information. The Business Compliance Officer assists the Corporate Compliance Officer in the dissemination of the Criminal Prevention Model, in the identification of risks and in the definition and monitoring of controls, and proposes action plans, within its scope, in cases where breaches or inefficiencies in the functioning of controls have been detected, submitting these proposals to the Corporate Compliance Officer.

The third level consists of corporate areas that report to Senior Management and/or to the Audit and Control Committee. This third level encompasses the Tax Division, responsible for the definition of tax policies, procedures and criteria generally applied to the FCC Group and the Corporate Compliance Officer, whose duties include the implementation of the Crime Prevention Model, the identification of risks in this area, and the definition and follow-up of the relevant controls, as well as the management of the Whistleblowing Channel and the proposal of action plans in cases in which breaches or inefficiencies have been detected in the operation of the controls. The Internal Audit and Risk Management areas, which report to the Audit and Control Committee, are also part of this third level. The Risk Management area is responsible for coordinating the Risk Management Model, defining a baseline methodology for identifying, assessing and reporting risks, providing support to those responsible for its implementation, and the Internal Audit area, in its capacity as the final level of control, ensures that the policies, methods and procedures are adequate and verifies their effective implementation.

E.3 Indicate the main risks, including tax risks and the extent to which those involving corruption are significant (the latter being understood within the scope of Royal Decree Law 18/2017), which may affect the achievement of business objectives.

Below, details are provided of the main risk scenarios, grouped by categories: strategic, operational, compliance and financial.

Strategic Risks.

Regulatory changes and political and socio-economic instability in countries and/or regions. Possible regulatory changes in social, tariff, commercial, labour, corporate, health, environmental and tax matters, etc., as well as changes in the public models for the development and management of environmental services, the end-to-end water cycle and infrastructures, or periods of economic, political or social instability in countries/regions in which the FCC Group operates or could operate, may lead to a reduction in business opportunities or a decline in the profitability of projects.

Global climate or health crises, natural disasters and regional armed conflicts Short- and medium-term climate disruptions, extreme weather phenomena, epidemics and pandemics, armed conflicts or terrorist activities that would affect the areas and territories in which the FCC Group operates and, consequently, the demand for goods and services, the operations and level of activity, and the infrastructures built and operated by the group. In addition, costs could increase due to ecological transition policies or health constraints, and mobility and optimisation of supply chains for goods and services could be hampered, affecting the achievement of the group's objectives.

Cut in investment and demand forecasts. A decline in GDP in the countries in which the group operates, the increase in public and private debt and changes in the forecasts and investment priorities of current and potential customers may have different negative impacts on the FCC Group. Furthermore, the revenues the Business Areas for Environmental Services, Water, Concessions and Real Estate are, to some extent,

dependent on the level of demand, which is subject to change as a result of conditions beyond the control of the FCC Group.

Loss of market share. The FCC Group works in highly competitive markets. Any difficulty in developing competitive and profitable bids, as well as the entry of new competitors in mature markets or regulatory and commercial barriers or restrictions for environmental or health reasons, could lead to a loss of market share.

Damage to reputational image. The FCC Group may be involved in certain internal or external circumstances that could adversely affect its reputational image and consequently its business.

Operational Risks.

Termination or unilateral modification of a contract, contractual issues and legal disputes. Clients may unilaterally modify or terminate certain contracts before their complete execution. The compensation that the FCC Group would receive in these cases may not be sufficient to cover the damages caused and, in addition, the FCC Group may need to resort to legal or arbitration procedures to collect it, thus increasing costs and delaying the actual receipt of the compensation. Furthermore, different interpretations of contractual and regulatory requirements may lead to discrepancies that could have an impact on the outcome of the projects.

Project reprogramming. A situation of political and/or financial economic instability in certain markets in which the FCC Group operates, together with other circumstances outside FCC's control, such as the lack of availability of land for infrastructure projects, or a delay in obtaining licences, health or environmental restrictions, disruption of the supply chain for goods and services or other things, could lead to the rescheduling of projects underway with an impact on their results.

Risks arising from links with third parties. The FCC Group could undertake its business activities jointly with public authorities or private entities through different forms of association. However, adverse circumstances in the project, or in a partner's economic or reputational situation, could lead to a situation that could adversely affect the FCC Group.

Uncertainty in pricing and optimisation of the supply chain, raw materials, energy and outsourced services. In the course of its activities, the FCC Group consumes considerable volumes of raw materials and energy, as well as working with a great number of subcontractors and manufacturers. Changing economic, environmental, health and regulatory conditions could lead to price fluctuations and difficulties in optimising the supply of goods and services, which could affect the FCC Group's results.

Labour conflict. Some of FCC Group's activities are labour intensive, with considerable geographical diversity (each with their respective labour laws), that for different reasons could lead to conflicts that will would the company's productive capacity and reputation.

Loss of human capital. The success of the FCC Group's business operations depends largely on key personnel with technical and managerial experience, so a substantial loss of such personnel could affect the completion and results of certain projects.

Risks associated with digitisation. Increased digitisation of operations and the rise of remote working could lead to disruptions in an ever-changing environment with continuous innovation.

Cyber attacks. The existence of threats of a cybernetic nature could affect tangible and intangible assets and lead to prolonged interruption, uncontrolled access and information and data leaks and/or hijacking.

Health and safety risks. One of the FCC Group's priority aims is to perform its activities with a high level of health and safety for all personnel, and to comply strictly with legal regulations in the field, which is reflected in the Prevention of Risks at Work Policy approved by the Board of Directors. Even so, the FCC

Group could be affected by the health crisis and incidents or accidents in the development of its activity that could harm and interfere with operations.

Environmental damage. CC's environmental commitment is mirrored in the Group's Environmental Policy approved by the Board of Directors. The Group has environmental management systems in place, implemented in projects and contracts that are audited and certified in accordance with the UNE-EN-ISO 14001 Standard. However, due to the nature of the Group's activities, there may be circumstances under which damage may occur in the form of spills, emissions, etc., that have an impact on projects and contracts.

Compliance Risks.

Regulatory or contractual non-compliance. The FCC Group's operations should respect all applicable regulations and these will vary from one jurisdiction to another and even from one municipality to another, as well as being subject to modifications. However, under certain circumstances, there may be short-term non-compliance with regulations, especially in the phase of adaptation to new legislation that could be enacted. Also, in certain projects it may be difficult to comply with all contractual requirements.

Non-Compliance with the Code of Ethics. The FCC Group has a Code of Ethics and Conduct, a Manual for Criminal Prevention and, among others, Anti-Corruption, Human Rights, Tenders, Agents, Gifts and partner relationship Policies regarding Compliance that have been approved by the Board of Directors, as well as a protocol for the prevention and eradication of bullying, all of which are binding on anyone linked to any company in the FCC Group. The high level body entrusted with promoting and supervising the Compliance Model is the Compliance Committee, chaired by the Corporate Compliance Officer.

Nevertheless, in the course of operations and relationships with clients, partners and suppliers, situations could arise that could lead to potential non-compliance with these regulations, resulting in legal, economic and reputational damages for the Group.

Financial Risks.

Credit risk and liquidity risk. Both risks are mainly attributable to accounts receivable and are therefore related to the Group's exposure to the credit risk of its clients and the liquidity lines available to them. The Group monitors the credit quality of its clients, the liquidity and financing lines for each of the companies to mitigate this risk.

Restricted access to financial markets. In specific circumstances, there may be some difficulty in obtaining or renewing corporate financing or for the execution of certain projects, due to situations of general instability that cause temporary disruption for the capital markets, requirements or guarantees requested by financiers, as well as the viability of the economic models that justify the repayment of funds. All this could affect regular funding, normal business, or result in the loss of business opportunities.

Impairment of the commercial fund. The FCC Group's commercial fund has a significant positive balance. FCC cannot guarantee that the Group will not incur losses/adjustments as a result of impairment of the commercial account or any other of the Group's material assets. If this should occur it could significantly affect the FCC Group's economic result.

Recoverability of deferred tax assets. At a consolidated level in the FCC Group there is a certain volume of deferred taxes, mostly corresponding to the Spanish tax group. Their recoverability could be affected by the cyclical nature of the Fiscal Group's profit, or by future changes in tax rates, especially corporate tax in Spain.

Fluctuation of exchange rates. Exchange rate risk is primarily located in borrowings denominated in foreign currencies, investments in international markets and payments received in currencies other than the euro.

Fluctuation of interest rates. The purpose of the Group's financial policy is to make sure that exposure of its debt is partially linked to variable interest rates. Any increase in interest rates could give rise to an increase in the FCC Groups's financial costs associated with borrowings at variable interest rates and could also increase the cost of refinancing the FCC Groups's borrowings and the issue of new debt.

E.4 Identify whether the entity has risk tolerance levels, including for tax risk.

According to the Risk Management Model, the level of tolerance to risk assumed by the FCC Group shall be dynamic over time, and shall vary depending on internal and/or external factors. It shall be defined by the Board of Directors and aligned with the strategy.

The elements that shall define the risk appetite of the FCC Group are as follows:

- A general profile of medium-to-low and predictable risk, based on a diversified business model.
- A stable and recurring policy for the generation of income.
- Intense participation of Senior Management that guarantees a culture of risk management focused on the protection and assurance of an adequate return on capital.
- A management model that ensures a global and interrelated vision of all risks, as part of a robust risk control environment, with responsibilities at different levels.
- The undertaking of its activity based on a behavioural model that protects the interests of its clients and shareholders.
- Zero tolerance against bribery and corruption.
- Concerning tax risk, the Tax Control Framework Standard defines the general tax risk management policy and the levels of tax risk that can be assumed.

E.5 Indicate the risks, including tax risks, that have materialised during the business year.

In 2020, the following risks have materialised:

- **Reduced activity as a result of measures decreed to curb the Covid-19 health crisis.**

Despite the fact that the group's main activities are the provision of services classified as essential, such as waste management, water supply, urban sanitation and infrastructure management, and the stability of demand for these services, the measures decreed for health reasons due to the pandemic declared by the WHO have had some impact on activity levels.

- **Inefficiencies in the supply chains of goods and services and in the mobility of human resources assigned to projects**

FCC has contracts in various countries around the world and optimises its supplies and work teams globally. Restrictions on the mobility of people, goods and services decreed by various countries for health reasons during 2020 have altered the logistics planned for certain projects carried out by the group.

- **Rescheduling of certain projects, especially in the infrastructure area.**

Various operational, technical and design circumstances, the availability of work areas, contractual interpretation, and especially the measures decreed to deal with the Covid-19 pandemic declared by the

WHO, have made it necessary to reschedule certain projects. The FCC Group carries out various initiatives, such as including contractual clauses that allow the costs arising from said rescheduling to be passed on, in addition to an active commercial relationship with the client in search of satisfactory solutions for both parties. The year's economic environment, however, has entailed added difficulties for negotiations in this area.

- **Contract and legal disputes.**

The high number of contracts with customers, suppliers and partners, as well as the possible requirements of authorities in different jurisdictions, means that the FCC Group is a party to civil, employment, criminal, arbitration, administrative, regulatory and similar proceedings that arise during the course of its ordinary business.

- **Changes in exchange rates of currencies with which the Group operates**

The volatility in the different currencies that affect the FCC Group's businesses continued this business year, with the devaluation of the US dollar and the Mexican peso having a significant impact. FCC Group's general policy is to mitigate the adverse effect on its financial statements of exposure to foreign currencies as much as possible, with regard to both transactional and purely equity-related movements. Therefore, the FCC Group manages the exchange rate risk that may affect both the Balance Sheet and the Income Statement, through natural coverage whenever possible, or by contracting different financial instruments.

- **New regulatory framework following the UK's exit from the EU.**

Following the entry into force of the United Kingdom's Withdrawal Agreement from the European Union, the FCC Group continues to monitor the potential effects on its businesses, especially in the Environmental Services area, and has developed plans to adapt to possible changes.

E.6 Explain the response and supervision plans for the company's main risks, including tax risks, as well as the procedures followed by the company to ensure that the Board of Directors responds to any new challenges that arise

Both the FCC Group's Risk Management Model and its Compliance Model establish comprehensive frameworks for the identification, assessment and management of risks in their respective fields of application.

Once the risks have been identified and prioritized, it is expected to establish control mechanisms through the Risk and Control Matrices that will include key controls aimed at preventing and/or mitigating the risks and the definition of persons in charge of these control activities. For those risks that exceed the accepted level of risk or when non-fulfilment or inefficiencies are detected in the operation of the controls, specific Action Plans will be established taking into account their operational viability, their possible effects, as well as the cost-profit ratio of implementation.

The supervision of the Risk Management Model is carried out by the Business Divisions with the support of the Risk Management area, while supervision of the Ethics and Compliance programmes is carried out by the Compliance Committee, chaired by the Corporate Compliance Officer with the support of the Compliance Officers of the businesses, following certification of controls and processes by their owners.

In light of potential political and socio-economic uncertainties, and especially in light of the increase in national deficits and public debt, the FCC Group will continue to focus on consolidating its diversified

international positioning, maintaining its market share in mature markets, and on seeking new formulas for public-private partnerships for the development of the end-to-end water cycle, environmental services and infrastructures, included in medium and long-term contracts.

Faced with risks caused by climate and health crises, the FCC Group maintains its position as a leading provider of services classified as essential, such as waste collection and treatment and street cleaning, the end-to-end water cycle service and the management and maintenance of transport infrastructures, which are business areas with low flexibility in demand and stable and predictable medium- and long-term cash flows. FCC has created its own strategy to adapt to climate change in Horizon 2050 that integrates all its business lines, and which is aimed at mitigating the risks associated with climate change by taking advantage of the business opportunities it represents, based on five pillars: communication with stakeholders, reduction of carbon footprint, innovation in products and services integrating their businesses in the circular and low-carbon economy, monitoring of emissions and adaptation to regulatory changes.

In relation to the risk of termination or modification of contracts and the rescheduling of projects, the FCC Group continuously monitors contractual contingencies, the planning and budgeting of operations and pursues an active negotiation policy.

Furthermore, the FCC Group monitors its key suppliers to avoid the risks of inefficiencies in the supply chain, both due to financial difficulties of suppliers and supply problems and stock depletion owing to alterations in the production chain and in the normal transit of goods due to the impact of restrictions for health or regulatory reasons. To mitigate risks involving the uncertainty and volatility of the prices of raw materials, energy and subcontracted services, before which purchasing procedures are applied preventively, also using deviation analysis as an indicator to detect deviations.

FCC's business units also have quality assurance, environmental management and occupational risk prevention systems, certified in accordance with international standards. Some of these units are part of the European Commission's Eco-Management and Audit Scheme, which is all designed to address these types of operational and compliance risks.

With regard to the risk of vulnerability to natural disasters, in addition to implementing different preventive actions, the FCC Group's policy sets to take out the necessary insurance policies to cover the possible risks to which the various elements of its property, plant and equipment and the activities carried out are subject.

To address the risks related to cyber attacks and information security, the FCC Group has an operational unit responsible for preventing, detecting, analysing and mitigating factors related to security events, such as intrusion, attacks, etc., as well as an Information Security Management System designed in line with international standards, and that has received third party certification for certain business areas. The FCC Group also has an internal policy for complying with the requirements of the data protection regulations, in addition to those responsible for this function both in the business units and at a corporate level.

In terms of other compliance risks, the FCC Group has a Code of Ethics and Conduct, which aims to ensure all persons linked to any FCC Group company are guided by the strictest behavioural guidelines in compliance with laws, regulations, contracts, procedures and ethical principles, being binding on all these persons. The FCC Group's Compliance Model also has, among other elements, documented policies on relationships with partners in matters of compliance, anti-corruption, agents, gifts and tenders, and is complemented by a Criminal Prevention Manual, compliance committee regulations, and documented procedures for investigation and response and the Whistleblowing Channel, as well as other procedures that further develop the different principles of action included in the Code of Ethics and Conduct.

Regarding financial risks, they are controlled by specialist departments at the business units, together with the General Administration and Finance Division, whose tasks include reaching decisions on risk transfer mechanisms (insurance), covering interest rate variations, and managing asset risks.

Senior Management.

The Senior Management of each of the units is ultimately responsible for the implementation of the Risk Management and Internal Control Model; its duties include the implementation of an effective and efficient control system for risks, including those associated with financial information.

General Administration and Finance Division.

The General Administration and Finance Division performs its duties in the areas of Administration, Information Systems and Technologies, Finance, Purchasing and Human Resources.

The Administration area directs the administrative management of the FCC Group and has the following duties, among others, in relation to Information Systems and Internal Control: general accounting, accounts standardisation, consolidation, tax advice, and tax procedures, tax compliance and the management of administrative procedures.

The Finance area, in relation to the Information and Internal Control Systems, its aims and actions are structured around financing the Group's activities, the management of its debt and financial risks, the optimisation of the treasury and financial assets, financial management and control, the management of markets and CNMV, the analysis and financing of investments, the management, monitoring and control of guarantees and collateral, the management of insurance and industrial and property risks and management control.

The Information Systems and Technologies area of the FCC Group ensures that adequate technological support is provided to the Group's management processes, optimising the level of service provided to users, and ensuring the confidentiality and integrity of information systems. Reporting to this area, the FCC Group has an Information Security Department responsible for defining, and implementing internal controls to verify proper compliance with corporate information security policies, including those that support the processes of preparing and publishing financial information, and that assume responsibility for data protection matters.

General Internal Audit and Risk Management Division.

Its objective is to provide the Audit and Control Committee and Senior Management with an independent and objective opinion on the Group's ability to achieve its objectives through a systematic and methodological approach for the assessment, management and effectiveness of internal control and risk management processes, assessing the effectiveness and reasonableness of the internal control systems, as well as the functioning of processes according to the procedures, proposing improvements and providing methodological support to the Division in the process of identifying the main risks that affect activities and supervising the actions for their management.

The responsibilities in relation to the Financial Information Control Systems of the General Internal Audit and Risk Management Division include the supervision of the process of preparing and submitting the Group's financial information before it is issued to the market, as well as contributing, together with the other areas involved, the development of internal controls by monitoring compliance with the policies, standards, procedures and activities that constitute the internal control model to ensure the correct management and reduction of risks, issuing recommendations for their improvement. Its responsibilities also include the supervision of projects and processes, performing a risk identification and an assessment of the control environment.

Compliance Committee.

This high-level internal management committee, with autonomous initiative and control powers entrusted by the Board of Directors, through its Audit and Control Committee, is responsible for promoting a culture of ethics throughout the Organisation and ensuring both internal and external regulatory compliance. Its duties and competencies include the monitoring and supervision of ethics and compliance programmes, as well as the Code of Ethics and Conduct, existing policies, rules, procedures and controls aimed, among other objectives, at preventing unlawful conduct. It is chaired by the Corporate Compliance Officer.

F.1.2. Whether the following elements are in place, especially in relation to the process of preparing financial information:

- **Departments and/or mechanisms in charge of: (i) designing and reviewing the organisational structure; (ii) of clearly defining the lines of responsibility and authority, with an adequate distribution of tasks and functions; and (iii) ensuring there are sufficient procedures for its correct dissemination throughout the institution.**

The highest authority for the design and review of the organisational structure as well as the definition of the lines of responsibility and authority is the CEO, appointed by the Board of Directors. Each Corporate or Business Division must define the organisational structure and the lines of responsibility of its management.

The process of determining the organisational structure is regulated by section 10 of the Group's General Standards Manual, which regulates the bodies that directly report to the Board of Directors, the distribution of the Group's management duties, and the appointment of managerial positions.

The first-level organisational structure is available on the corporate intranet, with the different business units having their own organisational structures associated with specific projects and contracts.

The Appointments and Remuneration Committee is responsible for examining and organising the succession of the Chairman of the Board of Directors and the CEO of the Company and, where appropriate, making proposals to the Board of Directors for this succession to take place in an orderly and planned manner. This is in addition to reporting on proposals for the appointment and dismissal of senior executives and the basic conditions of their contracts.

Among its specific responsibilities in terms of the Internal Financial Reporting Control System, the Administration area of the General Administration and Finance Division is responsible for the assumption of high-level executive functions in the management of the IFRS, the execution of control activities relating to the consolidation subprocess and the normalisation of the processes relating to the preparation of the information. The Risk Management areas responsibilities include methodological support in the identification of risks and controls in the process of preparing financial information. Finally, the Internal Audit area supervises the process of preparing and submitting the Group's financial information before it is issued to the market.

- **Code of conduct, approval body, degree of dissemination and awareness, principles and values included (indicating whether there are specific mentions to the register of operations and preparation of financial information), body in charge of analysing non-fulfilment and proposing corrective actions and sanctions.**

The Board of Directors, as a non-delegable power, is responsible for approving the FCC Group's Regulations or Internal Codes of Conduct. The Audit and Control Committee, in accordance with the aforementioned Regulations, is responsible for ensuring that the Internal Codes of Conduct and the Corporate Governance Rules comply with the regulatory requirements and are adequate for the Company, as well as reviewing compliance by those affected by these codes and rules of governance with their duties to inform the Company.

The FCC Group has a Code of Ethics and Conduct, the last update of which was approved by the Board of Directors in September 2019, which aims to ensure all persons linked to any FCC Group company, regardless of the type of contract applicable to their employment relationship, position or geographical area in which they perform their work, are guided by the strictest behavioural guidelines in compliance with laws, regulations, contracts, procedures and ethical principles, being binding on all these persons.

This Code is published both on the corporate intranet, as well as the Group's website, in 14 languages, where it can be read, performing awareness raising and communication campaigns and encouraging employees' compliance through different internal means, in both physical and electronic formats, with a view to strengthening the personal commitment of employees to the company's ethical compliance system. Likewise, training on the Code of Ethics and Conduct, and on its implementing policies and procedures, is a key aspect, present in the annual training plans of the FCC Group and its subsidiary companies.

In line with previous business years, in 2020 various training activities were carried out on the Code of Ethics and Conduct, mainly online, through the company's new training platform "FCC Campus", due to the social and health crisis affected all the Group's regions due to Covid-19 since March.

Specifically, during the business year, five new online training courses were provided as part of the FCC Campus Compliance and Values schools: training on the Code of Ethics and Conduct; Anti-Corruption training; training on the use of technological resources; training on workplace and sexual harassment; and training on bidding processes, in order to ensure alignment with the Code of Ethics and Conduct. A total of 18,321 FCC Group students successfully completed these ethics training courses in 2020, amounting to 11,633 hours of training.

Among the principles of action included in this Code are respect for the law and ethical values, zero tolerance for bribery and corruption, the prevention of money laundering and financing terrorist activities, protection of free competition and good practices in the market, ethical behaviour on the stock market, avoidance of conflicts of interest, rigour in the control, reliability and transparency of information, protection of the Group's reputation and image, the efficient and safe use of the company's resources and assets, the monitoring of property and the confidentiality of data and information, a customer orientation, the prioritisation of people's health and safety, the promotion of diversity and fair treatment, the

commitment to our environment, a transparent relationship with the community and extending the commitment to ethics and compliance to business partners.

The FCC Group's Compliance Model has, among others, documented policies on relationships with partners in matters of compliance, anti-corruption, Human Rights, agents, gifts and tenders, and is complemented by a Criminal Prevention Manual, Compliance Committee regulations, and documented procedures for investigation and response and the Whistleblowing Channel, as well as other procedures that further develop the different principles of action included in the Code of Ethics and Conduct.

Regarding the registration of transactions and the preparation of financial information, the current Code of Ethics and Conduct, under "Rigour in control, reliability and transparency", specifies "The information of the FCC Group must be prepared with the maximum reliability, complying with the applicable regulations and company rules and be duly guarded and conserved", stating that the process of accounting, registering and adequately and comprehensively documenting all transactions, income and expenses, at the time they occur, should be monitored without omitting, hiding or altering any data or information, so that the accounting and operational records faithfully reflect reality and can be verified by the control areas and by internal and external auditors. Failure to follow these premises could be considered to be fraud. The circumvention of the company's internal controls will be grounds for sanction". In addition, the FCC Group has a Tax Code of Conduct, which also includes a commitment to transparent behaviour in tax matters and an Internal Code of Conduct in the area of the FCC Group's Securities Market.

The Board of Directors has entrusted the Compliance Committee with the task of promoting an ethical culture throughout the organisation, ensuring both internal and external regulatory compliance. Its main duties and competencies include the management of the Whistleblowing Channel and the surveillance and supervision of ethics and compliance programmes, as well as the Code of Ethics and Conduct, and of policies, rules, procedures and controls. The Corporate Compliance Officer is the Chairman of the Compliance Committee and informs this Committee, at least monthly, about the performance of its duties and the level of regulatory compliance.

Furthermore, each of the Group's businesses has its own Business Compliance Officer, who assists the Corporate Compliance Officer in the implementation of the Crime Prevention Model, in the identification of risks, in the definition and monitoring of controls and in the handling of complaints and investigations relating to crimes and reported breaches of the Code of Ethics and Conduct. Furthermore, the Business Compliance Committees have been set up as a Crime Prevention body that supports, in this connection, both the Board of Directors or the equivalent decision-making body and the Corporate Compliance Committee itself.

- **Whistleblowing channel, which allows for the reporting to the audit committee of irregularities of a financial and accounting nature, in addition to possible breaches of the code of conduct and irregular activities in the organisation, stating, if applicable, whether it is confidential in nature and whether it allows for anonymous reporting, respecting the rights of the complainant and the reported party.**

The FCC Group has a Whistleblowing Channel, through which it is possible to confidentially report activities and behaviours that may involve a breach of any of the aspects of the Code of Ethics and Conduct, including potential irregularities that could have criminal consequences.

Communications can be made in three ways:

- Via the corporate intranet.
- Sending an email to a specific email address.
- Sending a letter addressed to a specific post box.

All communications are received and analysed confidentially by the Compliance Committee, and a clear protocol will apply to them comprehensively, so as to respond to them and handle them in an organised fashion. The management of the Whistleblowing Channel is regulated in the Whistleblowing Channel Procedure. The guidelines, procedures, tools and mechanisms for managing the different types of investigations within Compliance Model Monitoring are governed by the Investigation and Response Procedure, which guarantees the rights of the parties.

The functioning of the Whistleblowing Channel is described in the Whistleblowing Channel Procedure, available on the corporate intranet, in the "Policies, procedures and manuals" section, as well as in the Code of Ethics and Conduct itself, which specifies the obligation of all persons linked to FCC Group companies to report any breach of the Code of Ethics and Conduct of which they become aware.

In accordance with current data protection regulations, notifications through the Whistleblowing Channel can be either identified or anonymous, bearing in mind, in any case, that the system established guarantees the confidentiality of the complainant and takes into account the principle of non-retaliation against the person who has made a complaint.

- **Training and periodic update programmes for staff involved in the preparation and review of financial information, as well as in the assessment of the IFRS, covering at least accounting standards, audits, internal control and risk management.**

Training plans, both for the business units and at a Corporate level, include different training actions focussing on the acquisition, updating and recycling of economic-financial, regulatory, control and risk management knowledge, as well as other regulatory and business aspects, knowledge of which is necessary for the proper preparation and supervision of the Group's financial information. During 2020, 16,082 hours of specific training were provided on these subjects, among which the following training actions stand out: development of accounting treatments in International Financial Reporting Standards, investment analysis and financial modelling, reporting and budget control in project management, taxation, analysis of financial projections, asset and project financing, data protection, etc.

F.2 Assessment of financial information risks

Report, at least:

F.2.1. The main characteristics of the risk identification process, including error or fraud, in terms of:

- **Whether the process exists and is documented.**

The FCC Group Risk Management Model establishes a comprehensive framework for the identification, assessment and management of risks at all levels of the organisation, assigning responsibilities in different areas and levels of the Organisation.

Based on a cross-cutting risk matrix, the business units identify and assess the different risks, in terms of probability of occurrence and impact. This risk matrix includes risks relating to errors in the preparation of financial information under different perspectives.

Section E of this Annual Corporate Governance Report details the activities, responsibilities and functioning of the FCC Group Risk Management Model.

- **Whether the process encompasses all the financial information objectives (existence and occurrence; integrity; appreciation; presentation, breakdown and comparability; and rights and obligations), whether it is updated and how often.**

The FCC Group's Risk Matrix contemplates, from different perspectives, risks related to the most relevant financial information objectives. On the one hand, as part of Operational and Financial Risks, different aspects relating to the analysis, monitoring and efficiency in the management of different financial information are considered. As part of Compliance Risks, the repercussions of non-compliance with the regulatory requirements in accounting, commercial and corporate matters are contemplated. The risk of fraud is contemplated in the Crime Prevention Model. Finally, as part of Reporting Risks, several risks relating to shortcomings in reporting models and systems are considered, including but not limited to aspects of reliability, timeliness and transparency.

Both the identification process and the risk assessment process include periodic updates, taking into account both business needs and external factors. In addition, there are regular reports on the most significant risks of the different business units as well as the corporate functions.

- **The existence of a consolidation perimeter identification process, taking into account, among other aspects, the possible existence of complex corporate structures or special purpose entities.**

Each of the areas into which the FCC Group is organised is responsible for maintaining and updating the consolidation perimeter corresponding to its area of activity. Documented procedures are also in place for the reporting of consolidated economic and financial information to the Administration Area, for the creation of consolidation perimeters and the execution of the consolidation process. The Accounting Consolidation and Standardisation Department carries out accounting standardisation duties to ensure that the accounting reflection of operations is correct and uniform in all the companies that make up the FCC Group and carries out the consolidation process to obtain the Group's consolidated financial statements. Additionally, periodic controls are performed on the correct accounting treatment of companies that make up the consolidation perimeter.

- **Whether the process takes into account the effects of other types of risks (operational, technological, financial, legal, reputational, environmental, etc.) to the extent that they affect the financial statements.**

The FCC Group's Risk Matrix includes different operational, technological, information security, financial, legal, environmental and reputational risks, in addition to others, which are divided into the following five broad categories: strategic, operational, compliance, financial and reporting risks. These risks are valued considering their potential impact on the financial statements should they materialise.

- **Which governing body at the entity supervises the process.**

The Audit and Control Committee is responsible for the regular supervision of the internal control and risk management systems, including tax risks, so that the main risks are properly identified, managed and disclosed. This is with the support of the Internal Audit function in the review of controls, the General Administration and Finance Department and the Corporate Compliance Officer, whose responsibilities include the review of risk maps and controls related to the Criminal Prevention Model.

In addition, the business unit managements also supervise the risk identification process, their main duties and responsibilities being the implementation of the Risk Management Model, the analysis and monitoring of risks, the design of alert indicators and communication with the Risk Management function.

F.3 Control activities

Report, indicating their main characteristics, whether at least the following are in place:

F.3.1. Procedures for reviewing and authorising the financial information and description of the IFRS, to be disclosed to the securities markets, indicating those in charge of them, as well as descriptive documentation concerning the flows of activities and controls (including those relating to fraud risk) of the different types of transactions that may materially affect the financial statements, including the year-end accounting procedure and the specific review of the relevant resolutions, estimates, measurements and projections.

The high-level functions regarding the Internal Financial Reporting Control System are assumed by the General Administration and Finance Division of the FCC Group, which certifies the consolidated accounts in terms of their integrity and accuracy, with the approval of the CEO.

The conclusions of the internal control assessment performed by the external auditor as part of the audit of accounts, together with the supervision performed by the General Internal Audit and Risk Management Division, are submitted to the Audit and Control Committee as part of reports containing the recommendations considered necessary.

Finally, the favourable report of the Audit and Control Committee is a preliminary step as part of the preparation of the Annual Accounts and the Management Report by the Board of Directors.

In addition, as part of the process of disclosing financial information to the securities markets, either quarterly or on an exceptional basis, or when a relevant fact is issued, those responsible for each area review the information reported for the purposes of consolidation. This information is consolidated by the Group's General Administration and Finance Division, which performs specific control activities as part of the year-end accounting process to ensure the reliability of this information. The Internal Audit area supervises the process of preparing and submitting the Group's financial information before it is issued to the market.

Additionally, the specific review of the relevant resolutions, estimates, measurements and projections to quantify certain assets, liabilities, income, expenses and commitments recorded and/or broken down in the Annual Accounts, is also carried out by the General Administration and Finance Division with support from the other divisions. Hypotheses and estimates based on the evolution of the business are reviewed and analysed in cooperation with the corresponding Business Divisions.

For each of the business units, as well as for corporate services, the FCC Group has a series of controls to regulate, supervise and monitor, among other aspects, business management processes, the aim of which is to prevent and detect breaches of the FCC Group's policies and procedures and potential fraud risk situations.

In addition to the bases established in Articles 10, 11 and 14 of the Rules of the Board of Directors, which describe the specific duties relating to the Annual Accounts, the Management Report and the relationship with the securities market, the FCC Group has defined procedures in place on year-end and maintenance processes concerning the accounts plan, including procedures to ensure the correct identification of the consolidation perimeter. Specifically, the Economic-Financial Manual covers the accounting treatment of the different types of processes and transactions that may affect Financial Statements (accounting, tax, insurance, treasury, etc.), and includes a series of rules that make it possible to obtain information of an economic-financial nature in a standardised manner, including procedures to make economic and financial

information available to the Administration and IT areas, obtain consolidated information, tax reporting, submission of financial statements, accounting, transactions with related parties, etc.

F.3.2. Internal control policies and procedures on information systems (among others, on access security, change control, their operation, operational continuity and segregation of duties) that support the institution's relevant processes in relation to the preparation and publication of financial information.

FCC has an Information Security Policy in place that defines the company's information security model, the regulatory body, organisation and responsibilities when it comes to the security, classification of information, the information security areas, the risk analysis model and the information auditing procedure. Internal control policies and procedures on information systems cover all the Group's information management processes, including the processes for preparing and publishing financial information. Certain part of the activities performed by Infrastructure (construction and Industrial) and Water have an international certified ISO-27001 Information Security Management System.

Worth particular mention from among the Information Security System documentation are the specific rules on database security, encryption, access control, equipment configuration control, mobile device security, backup copies, incident management, systems laboratories, networks, password security, privacy, security in developments, documents and outsourcing services to external companies, physical security, roles and responsibilities in information security, return of technological resources and compliance with the requirements of the General Data Protection Regulation. This is in addition to the Policy for the Use of Technology and the Information Management Policy. These regulations are published on the corporate intranet.

In addition, the Information Technology area has procedures in place for managing the life cycle of user access, managing changes to platforms and systems and managing security incidents and breaches.

Information and application security is monitored continuously through an SOC (Security Operations Centre) service, and periodic internal reviews of the computer control environment are also performed.

In addition, the Centre of Expertise that provides the support and maintenance service to the FCC Group's ERP has obtained the SAP "Customer Center of Expertise Primary Certification" certificate.

Lastly, in order to ensure a suitable separation of duties in the entity's important processes in relation to the preparation and publication of financial information, the FCC Group has various tools, including role matrices and approval work flows.

F.3.3. Internal control policies and procedures aimed at supervising the management of activities outsourced to third parties, as well as those aspects of assessments calculations or measurements entrusted to independent experts, which may materially affect the financial statements.

The FCC Group's Purchasing Regulations include a specific procedure for supplier management, applicable to all subcontracted activities that regulates official approval and evaluation processes, among other matters. The Purchasing Manual, which was updated in July 2020, describes these processes.

With respect to the significant activities outsourced with an impact on the financial statements, the FCC Group has outsourced the provision of management services for its IT and telecommunications infrastructures, as well as support for the main corporate applications. The Information Systems and Technologies Division has a standard that defines the security criteria in terms of outsourcing to external

companies, and specific procedures for the control of outsourced services through the contractual regulation of the following aspects:

- Governance mechanisms and service monitoring
- Audits, inspections and service reviews
- Service level management
- Monitoring and control of services performed by third parties that affect ISO 27001 certifications

The main outsourced activities relating to the execution or processing of transactions reflected in the Group's Financial Statements are the measurement of derivative financial products, the performance of actuarial calculations and the appraisal of certain fixed assets. These activities are controlled by the Administration and Finance Division.

The economic information prepared in certain projects by business partners is supervised by the FCC Group's management teams for standardisation prior to consolidation in accordance with the guidelines of the procedures on the economic and financial reporting system and forms part of the auditable environment within the annual audit plans and the scope of consolidation.

F.4 Information and communication

Report, indicating their main characteristics, whether at least the following are in place:

F.4.1. A specific area in charge of defining, keeping accounting policies up to date (accounting policies area or department) and resolving queries or conflicts concerning their interpretation, maintaining fluid communication with those responsible for operations across the organisation, as well as an up-to-date accounts policy manual communicated across the units through which the company operates.

Responsibility for the application of the accounting policies at the FCC Group is centralised through the General Administration and Finance Division, to which the Accounting Consolidation and Standardisation Department and Administrative Coordination Department and Administrative Procedures and Tax Division report. These departments are responsible for functions including but not limited to:

- Defining the Group's accounting policies and incorporating them in the Financial Economic Manual.
- Issuing the accounting regulations applicable to the Group.
- Resolving queries or conflicts concerning the interpretation or application of the Group's accounting policies to any company included in the perimeter and specifying, clarifying or extending the instructions and regulations issued.
- Analysing single operations and transactions carried out or that the Group plans to carry out with a view to ensuring their adequate accounting treatment in line with the Group's accounting policies.
- Interpretation of new developments in accounting regulations and their consistent application in all the companies that form part of the Group.
- Resolution of tax queries and incidents and preparation of tax returns and compliance with other tax obligations.

The Financial and Economic Manual that includes the accounting regulations is available on the Group's Intranet. It is updated and maintained by the different departments under the General Administration and Finance Division. The FCC Group also has a Tax Code and a Tax Control Framework Standard.

F.4.2. Mechanisms for obtaining and preparing financial information in homogeneous formats, for application and use by all units of the company or Group, which support the main financial statements and notes, as well as the information provided on the IFRS.

The FCC Group has implemented SAP environment tools for the consolidation of the economic-financial information used to respond to the reporting needs of its financial statements. This tool makes it possible to centralise a significant part of the information corresponding to the accounting of the individual financial statements of the Group's subsidiaries in a single system. The system is centrally managed and uses a single account plan. Through this tool, the General Administration and Finance Department collects comprehensive information about the FCC Group as a whole, from both Spanish and foreign companies.

The accounting policies, procedures and internal rules relating to year-end, reporting and consolidation processes are described in the Group's Financial and Economic Manual, in addition to detailing the information that must be provided for the consolidation process and defining both the reporting deadlines and the base documents and forms to provide this information. This Manual also includes procedures for obtaining the consolidated information in SAP FC (creation of consolidation perimeters, execution of the consolidation process, controls, etc.) and for all reporting phases, as well as other procedures relating to the processes of applications in the SAP FC environment.

In addition, at year-end and with a view to publishing the annual financial report, the Administration area of the General Administration and Finance Department sends the year-end plan, including a series of instructions, to those responsible for providing the corresponding financial information. The Administrative Coordination Department, specifies, clarifies or extends these instructions when required.

The consolidated accounts follow the guidelines set out in the International Accounting Standards (IAS) and the International Financial Reporting Standards (IFRS). With a view to guaranteeing a homogeneous accounting process, the FCC Group has developed a corporate chart of accounts that is also included in the Financial and Economic Manual.

In 2020, in order to comply with ESEF regulations, the IT tools for XBRL tagging of the Consolidated Financial Statements and Notes to the Financial Statements have been adapted with the aim of publishing these statements in XHTML format.

F.5 Supervision of the system's functioning

State, indicating their main characteristics, at least:

F.5.1. The IFRS supervision activities performed by the audit committee and whether the company has an internal audit area responsible, in addition to other aspects, for supporting the committee in its work to supervise the internal control system, including the IFRS. Furthermore, the scope of the IFRS assessment carried out during the year and the procedure through which the person in charge of carrying out the assessment will communicate the corresponding results shall be indicated, whether the company has an action plan detailing the possible corrective measures, and whether their impact on financial information has been considered.

The Audit and Control Committee performs the following activities:

- Inform the General Shareholders' Meeting about the issues raised in relation to the matters within its remit and, in particular, the outcome of the audit, explaining how it has contributed to the integrity of the financial information and the role that the Committee has played in that process.
- Serve as a channel of communication between the Board of Directors and the external auditor at the Company, assessing the outcome of each audit and ensuring his/her independence.

The Internal Audit area forms part of the General Internal Audit and Risk Management Division. Its core mission is to facilitate the Audit and Control Committee in the fulfilment of its duties and responsibilities, acting with total independence from management areas, as it functionally reports to the Audit and Control Committee. Among its responsibilities and competencies relating to IFRS are:

- Collaborating in the supervision of the process for preparing and submitting the Group's financial information before it is issued to the market.
- Contributing, together with the other areas involved, to the development of internal control by monitoring compliance with the policies, standards, procedures and activities that constitute the internal control model to reduce risks, issuing improvement recommendations.
- Supervising projects and processes, carrying out a risk identification and an assessment of the control environment.
- Act as a third line of defence, conducting reviews of the Compliance Model.
- Performing the internal investigations designated by the Compliance Committee.

The outcome of the reviews performed by the Internal Audit area and the incidents detected are communicated by the General Internal Audit and Risk Management Division to the Audit and Control Committee.

The Audit and Control Committee is responsible for supervising the work carried out by the Audit and Risk Management Division, as well as for approving and monitoring the Annual Activity Plan. During 2020, the following tasks relating to the management and control of risks and the supervision of the Group's Financial Information were carried out by different areas:

F.5.2. Whether a discussion procedure is in place, whereby the account auditor (pursuant to the provisions of the NTA), the internal audit area and other experts can inform Senior Management and the Audit Committee or the company's administrators of significant internal control shortcomings identified during the review of the financial statements or those entrusted to them. Furthermore, indicate whether an action plan is in place that seeks to correct or mitigate the shortcomings identified.

The Rules of the Board of Directors at the FCC Group establish that it is the responsibility of the Audit and Control Committee to serve as a channel of communication between the Board of Directors and the Company's external auditor, assessing the results and discussing the significant shortcomings in the Control System Internal detected during the performance of the audit.

The Group's auditor has direct access to the Group's Senior Management, holding regular meetings, both to obtain information required for the performance of his/her work, and to communicate the control shortcomings detected. External auditors submit the conclusions of their reviews to the Audit and Control Committee, detailing the internal control shortcomings identified in the performance of their review of the Group's financial statements, including any aspect they deem relevant. In 2020, the External Auditor attended five Audit and Control Committee meetings, presenting five reports.

Furthermore, the Regulations of the Internal Audit area at the FCC Group indicate that the Audit and Control Committee shall be made aware, through the General Internal Audit and Risk Management Division, among others, of the most relevant aspects in relation to: relationships with external auditors, the outcome of the supervision of the reliability and integrity of the financial and management information of Group companies before being issued to the market, the fulfilment of internal and external regulatory requirements, the functioning of the internal control systems, and the development and functioning of risk management systems.

In addition, the Regulations of the Internal Audit area at the FCC Group establish that the Audit and Control Committee will be supported by the General Internal Audit and Risk Management Division in fulfilling its responsibilities and competences, without prejudice to the support or assistance received from other areas. The Internal Audit area performs monitoring processes on accounting information (individual and consolidated), management reports and financial information that is periodically disclosed to the markets.

The General Internal Audit and Risk Management Division at the FCC Group periodically informs the Audit and Control Committee of the significant internal control shortcomings identified during the performance of its work, indicating the recommendations to be implemented to properly correct them. The Audit and Control Committee also receives presentations performed by the General Administration and Finance Division and the Compliance Officer, as well as the different corporate areas in relation to risks that have materialised.

 - b) Of the specific reasons that the company does not follow any of the recommendations in the Corporate Governance Code and, as applicable, any alternative rules that apply in this regard.**

Compliant ☐ Partially compliant ☐ Explain X

In this connection, the announcement of the General Shareholders' Meeting is expressly indicated in the "Right to Information" section that all shareholders are entitled to obtain from the Company, for consideration at its registered office or for immediate dispatch free of charge, including the Annual Corporate Governance Report, which is submitted to shareholders for approval as part of the Management Report.

The company publishes this policy on its website, including information related to the way in which it has been implemented and identifying the points of contact or persons responsible for carrying it out.**

And, notwithstanding the legal obligations to disclose inside information and other types of regulated information, the company should also have a general policy regarding the communication of economic-financial, non-financial and corporate information through the channels it deems appropriate (media, social networks or other channels) that helps to maximise the dissemination and quality of the information available to the market, investors and other stakeholders.

Compliant ☒ Partially compliant ☐ Explain ☐

- a) Report on the independence of the auditor.**
- b) Reports on the functioning of the audit committee and the appointments and remuneration committee.**
- c) Report of the audit committee on related transactions.**

Compliant ☐ Partially compliant ☒ Explain ☐

The company approves the self-assessment reports corresponding to the Audit and Control Committee and the Appointments and Remuneration Committee at the first Board meeting of the business year.

These reports are not published when the company considers that information is already provided to this end in Section C.2.1 on the IAGC Board of Directors committees, which is available on the Group's corporate website.

The approval of transactions with related parties lies with the Appointments and Remuneration Committee responsible for this specific function.

Also in Section D2 of the IAGC, the significant transactions that have taken place during the year are listed.

7. The Company broadcasts General Shareholders' Meetings live, on its website.

And that the company has mechanisms that enable proxy voting and voting by remote means and even, in the case of large-cap companies and to the extent appropriate, attendance and active participation at the General Meeting.

Compliant X Partially compliant ☐ Explain ☐

8. The audit committee should ensure that the financial statements submitted by the Board of Directors to the general shareholders' meeting are drawn up in accordance with accounting standards. In those cases in which the auditor has included an exception in the audit report, the chairman of the audit committee should clearly explain at the general meeting the audit committee's opinion on its content and scope, and a summary of said opinion should be made available to shareholders at the time of publication of the notice of call to the meeting, together with the rest of the board's proposals.

Compliant X Partially compliant ☐ Explain ☐

9. The Company publishes on its website, on a permanent basis, the requirements and procedures that it shall accept to demonstrate ownership of shares, the right to attend the general shareholders meeting and the exercise or delegation of the right to vote.

These requirements and procedures promote the attendance and exercise of shareholders' rights and are applied in a non-discriminatory manner.

Compliant X Partially compliant ☐ Explain ☐

10. When a legitimate shareholder has exercised, before the General Shareholders' Meeting is held, the right to add to the agenda or submit new resolutions, the Company:

- a) Immediately disseminates these additional items and new resolutions proposed.**
- b) Discloses the attendance card template or vote delegation form or distance voting form with the necessary modifications so that the new items on the agenda and alternative resolution proposals can be voted on under the same terms as those proposed by the Board of Directors.**

- c) Submits all the alternative points or proposals to a vote and apply the same voting rules as applied to those prepared by the Board of Directors, including, in particular, assumptions or deductions on the meaning of the vote.
- d) After the General Shareholders' Meeting, communicate the breakdown of the vote on these additional items or alternative proposals.

Compliant ☐ Partially compliant ☒ Explain ☐ Not applicable ☐

Two different systems are used, for practical reasons, to count votes, all pursuant to the provisions of Article 20 of the Rules of the General Shareholders' Meeting, although the Chairman of the Board, in each specific case, may decide to apply the same counting system (Art. 20, section 4 of the Rules of the General Meeting).

- 11. If the company plans to pay out attendance premiums to the General Shareholders Meeting, a general policy on these premiums is established in advance and this policy is stable.**

Compliant ☐ Partially compliant ☐ Explain ☐ Not applicable ☒

And in the pursuit of social interests, in addition to respect for the laws and regulations and conduct based on good faith, ethics and respect for commonly accepted uses and good practices, the company seeks to reconcile its own social interest with, as appropriate, the legitimate interests of its employees, its suppliers, its customers and those of the other stakeholders that may be affected, as well as the impact of the company's activities on the community as a whole and on the environment.

Compliant ☒ Partially compliant ☐ Explain ☐

- 13. The Board of Directors is the correct size to ensure it is effective and participative, meaning it is advisable to have between five and fifteen members.**

Compliant ☒ Explain ☐

- 14. The Board of Directors should adopt a policy aimed at encouraging a suitable composition for the Board of Directors and it should:**

- a) be specific and verifiable;
- b) ensure that proposed appointments and re-elections are based on a preliminary analysis of the powers required by the Board of Directors; and
- c) promote the diversity of knowledge, experience, age and gender. For these purposes, measures that encourage the company to have a significant number of female senior executives are considered to be conducive to gender diversity.

The result of the preliminary analysis of powers required by the Board of Directors is included in the explanatory report issued by the Appointments Committee that is published when the General Shareholders Meeting is called and to which the ratification, appointment or re-election of each director is submitted.

The Appointments Committee will verify compliance with this policy and will be informed in the Annual Corporate Governance Report.

Compliant ☒ Partially compliant ☐ Explain ☐

- 15. Proprietary and independent directors represent a large majority of the Board of Directors and that the number of executive directors is the minimum necessary, taking into account the complexity of the corporate group and the shareholding of the executive directors in the Company's capital.**

And that the number of female directors should account for at least 40% of the members of the Board of Directors by the end of 2022 and beyond, but no less than 30% before then.

Compliant ☐ Partially compliant ☒ Explain ☐

With regard to the percentage of female directors, the FCC's Board of Directors has four female directors out of a total of 14, entailing a percentage of 28.57.

- 16. The percentage of proprietary directors compared to the total of non-executive directors is no greater than the proportion between the capital of the Company represented by these directors and other capital.**

This criteria may be relaxed:

- a) At companies with a high capitalisation with few shareholdings considered significant by law.**
- b) For companies in which there is a large number of shareholders represented on the Board of Directors who have no links to one another.**

Compliant ☒ Explain ☐

- 17. The number of independent directors represents at least half the total number of directors.**

However, when the company is not highly capitalised or when, even if it is, one shareholder or more shareholders are acting together, controlling more than 30% of the share capital, the number of independent directors represents at least one third of the total number of directors.

Compliant ☐ Explain ☒

On its Board of Directors, FCC has three independent directors out of a total of fourteen members, representing 21 percent of the total number of directors.

FCC believes that this percentage does not require an increase in the number of independent directors, considering the Company's very concentrated shareholding structure and the effective role of the three independent directors.

18. Companies publish the following information about directors on their website, and keep it up to date:

- a) Professional and biographical profile.**
- b) Other boards of directors to which they belong, whether at listed companies or not, and the other paid activities they perform, regardless of their nature.**
- c) Indication of the category of Director to which they belong, indicating, in the case of proprietary directors, the shareholder they represent or with whom they have links.**
- d) Date of their first appointment as a Director of the Company, as well as subsequent re-elections.**
- e) Shares in the company, and options on them, that they own.**

Compliant ☐ Partially compliant ☒ Explain ☐

The company makes available on its website the professional and biographical profile, other boards of directors to which the directors belong, the director's category, the date of his or her first appointment and the shares in the company, without considering it necessary, for the time being, to disclose other remunerated activities carried out by the director, whatever their nature.

19. The Annual Corporate Governance Report, after a check performed by the Appointments Committee, explains the reasons that proprietary directors have been appointed at the request of shareholders whose shareholding is less than 3% of the capital stock; and it explains the reasons that formal requests for presence on the Board from shareholders whose shareholding is equal to or greater than that of others, at whose request proprietary directors have been appointed, have not been met.

Compliant ☐ Partially compliant ☐ Explain ☐ Not applicable ☒

20. Proprietary directors submit their resignation when the shareholder they represent fully transfers their shareholding. They also do so, in the corresponding number, when said shareholder reduces their shareholding to a level that requires a reduction in the number of their proprietary directors.

Compliant ☒ Partially compliant ☐ Explain ☐ Not applicable ☐

21. The Board of Directors does not propose the removal of any independent director before the end of the statutory period for which they were appointed, unless there is just cause, identified by the Board following in a report from the Appointments and Remuneration Committee. In particular, it shall be considered that there is just cause when the director first occupies new positions or contracts new obligations that prevent him/her from dedicating the necessary time to the performance of the duties assigned to the position of director, breaches the duties inherent to the position in question or incurs in any of the circumstances resulting in him/her losing his/her status as an independent director, pursuant to the provisions of the applicable legislation.

The removal of independent directors may also be proposed as a result of takeovers, mergers or other similar corporate transactions that involve a change in the capital

structure of the company, when these changes in the structure of the Board of Directors can be attributed to the criteria of proportionality indicated in recommendation 16.

Compliant X Explain ☐

22. Companies should establish rules requiring directors to report and, where appropriate, resign when situations arise affecting them, whether or not this is related to their actions in the company itself, which could be harmful to the credit and reputation of the company. This is in addition to the specific requirement of informing the Board of Directors of any criminal proceedings in which they are under investigation, as well as the progress of any such proceedings.

And, having been informed of or otherwise having become aware of any of the situations mentioned in the previous paragraph, the board should examine the case as soon as possible. It should also, in view of the specific circumstances, decide, after a report from the appointments and remuneration committee, whether or not to adopt any measures, such as opening an internal investigation, requesting the resignation of the director or proposing his or her dismissal. And to report on the matter in the annual corporate governance report, unless there are special circumstances justifying this, which should be recorded in the minutes. This is notwithstanding the information that the company must disclose, where appropriate, at the time of adopting the corresponding measures.

Compliant X Partially compliant ☐ Explain ☐

23. All directors clearly express their opposition when they consider that any proposed decision submitted to the Board of Directors may be contrary to the corporate interest. The same applies, in a special way, to independents and other directors who are not affected by any potential conflict of interests, in the case of decisions that may harm shareholders not represented on the Board of Directors.

When the Board of Directors adopts significant or repeated decisions about which the director would have made reservations, he/she shall draw the necessary conclusions and, if he chooses to resign, explain his/her reasons for doing so in the letter indicated in the following recommendation.

This recommendation also applies to the secretary of the Board of Directors, even if he/she does not have the status of a director.

Compliant X Partially compliant ☐ Explain ☐ Not applicable ☐

24. When, either by resignation or by resolution of the general meeting, a director steps down before the end of their term of office, they should sufficiently explain the reasons for their departure or, in the case of non-executive directors, their views on the reasons for the board's decision to dismiss them, in a letter sent to all members of the Board of Directors.

And, notwithstanding the fact that all the above is disclosed in the annual corporate governance report, to the extent that it is relevant for investors, the company should

announce the departure as soon as possible, including a sufficient mention of the reasons or circumstances provided by the director.

Compliant ☒ Partially compliant ☐ Explain ☐ Not applicable ☐

- 25. The Appointments Committee ensures that non-executive directors have sufficient time available for the proper performance of their duties.**

And the Rules of the Board establish the maximum number of Boards on which its directors may serve.

Compliant ☐ Partially compliant ☒ Explain ☐

In Article 21.4 of the Rules of the Board, the Company establishes that "Directors must inform the Appointments and Remuneration Committee of their other professional obligations, should they could interfere with their dedication of the position, and the Board shall establish, at the proposal of the Appointments and Remuneration Committee, the number of Boards on which directors may serve".

Since the aforementioned Committee has not stipulated this number to date, the Company believes that it is partially compliant with the recommendation.

The Company, for the time being, has not set the maximum number of Boards to which each director may belong, since the dedication of the directors to the company has proven to be adequate, without it being necessary, therefore, to define a number.

- 26. The Board of Directors meets with the necessary frequency to perform its duties effectively and, at least, eight times a year, following the programme of dates and matters established at the beginning of the year, with each director allowed to individually propose other items on the agenda not initially provided for.**

Compliant ☒ Partially compliant ☐ Explain ☐

- 27. The absence of directors is limited to indispensable cases and quantified in the Annual Corporate Governance Report. And should such absences occur, the directors appoint a proxy with instructions.**

Compliant ☒ Partially compliant ☐ Explain ☐

- 28. When the directors or the secretary express concern about any proposal or, in the case of directors, about the progress of the company and these concerns are not resolved by the Board of Directors, at the request of the person expressing them, these shall be recorded in the minutes.**

Compliant ☒ Partially compliant ☐ Explain ☐ Not applicable ☐

- 29. The Company establishes the appropriate channels so that directors can obtain the necessary advice for them to perform their duties, including, if the circumstances so require, external advice charged to the company.**

Compliant ☒ Partially compliant ☐ Explain ☐

- 30. Regardless of the knowledge required by directors in the exercise of their duties, the companies also offer the directors knowledge refresher programmes when the circumstances so advise.**

Compliant ☒ Explain ☐ Not applicable ☐

- 31. The agenda of meetings clearly indicates the points on which the Board of Directors must adopt a decision or resolution so that the directors can study or collect, in advance, the information necessary for its adoption.**

When, exceptionally, for reasons of urgency, the Chairman wishes to submit decisions or resolutions that do not appear on the agenda for approval by the Board of Directors, the prior and express consent of the majority of the directors present shall be required, duly reflected in the minutes.

Compliant ☒ Partially compliant ☐ Explain ☐

- 32. Directors are periodically informed of changes in the shareholding structure and of the opinion that significant shareholders, investors and rating agencies have about the company and its Group.**

Compliant ☒ Partially compliant ☐ Explain ☐

- 33. The Chairman, as the person responsible for the effective functioning of the Board of Directors, in addition to exercising the duties assigned to him by Law and in the Bylaws, prepares and submits a programme of dates and matters to be discussed to the Board of Directors; organises and coordinates the periodic assessment of the Board, as well as, where appropriate, the company's Chief Executive; is responsible for the direction of the Board and the effectiveness of its functioning; ensures that sufficient discussion time is devoted to strategic issues, and agrees and reviews knowledge refresher programmes for each director, when the circumstances so advise.**

Compliant ☒ Partially compliant ☐ Explain ☐

- 34. When there is a coordinating director, the Bylaws or the Rules of the Board of Directors, in addition to the powers that correspond to him by Law, assign the following powers thereto: preside over the Board of Directors in the absence of the Chairman and Deputy Chairman, as applicable; echoes the concerns of non-executive directors; maintains contact with investors and shareholders to obtain their points of view to form an opinion on their concerns, particularly in relation to the corporate governance of the company; and coordinates the Chairman's succession plan.**

Compliant ☐ Partially compliant ☐ Explain ☐ Not applicable ☒

- 35. The secretary of the Board of Directors ensures that the Board of Directors takes into account the recommendations on good governance contained in the Code of Good Governance applicable to company in its actions and decisions.**

Compliant ☒ Explain ☐

36. The Board of Directors assesses, once a year, and adopts, where appropriate, an action plan that corrects any shortcomings detected regarding:

- a) The quality and efficiency of the functioning of the Board of Directors.**
- b) The functioning and composition of its committees.**
- c) Diversity in the composition and powers of the Board of Directors.**
- d) The performance of the Chairman of the Board of Directors and the Chief Executive of the company.**
- e) The performance and contribution of each director, paying particular attention to those responsible for the different Board Committees.**

To perform the assessment of the different committees, the report submitted to the Board of Directors will be used, and for the Board assessment, the report submitted to the Appointments Committee.

Every three years, the Board of Directors will be assisted by an external consultant in performing the assessment, whose independence shall be verified by the Appointments Committee.

The business relationships that the consultant or any company in its group may have with the company or any Group company shall be broken down in the Annual Corporate Governance Report.

The process and the areas assessed shall be described in the Annual Corporate Governance Report.

Compliant ☐ Partially compliant ☒ Explain ☐

The Board of Directors internally performs the annual assessment of the efficiency of its functioning, its committees, as well as that of the Chairman of the Board of Directors (non-executive) and the CEO.

The Company believes that the conclusions drawn during the internal assessment make it possible to sufficiently correct any shortcomings detected or improvements in the functions assigned to the Board.

The assessment with the help of an external consultant has been carried out twice in the past. The Board shall assess the suitability of requesting such external assistance each business year.

37. When there is an executive committee, at least two non-executive directors should sit on it, at least one of whom should be independent and its secretary should be the secretary of the Board of Directors.

Compliant ☐ Partially compliant ☒ Explain ☐ Not applicable ☐

The secretary of the Executive Committee is the same as the secretary to the Board. However, in the composition of this committee, there are no independent directors, whereas there are three such directors on the Board.

All decisions taken by the Executive Committee are reported to the Board.

On this Committee, independent directors may request as many clarifications or comments as they deem appropriate.

Given the continuous control that the Board exercises over the Executive Committee, it has not been considered necessary to include independent directors on this Committee.

- 38. The Board of Directors is always aware of the matters discussed and the decisions taken by the Executive Committee and that all the members of the Board of Directors receive a copy of the minutes of the Executive Committee meetings.**

Compliant ☒ Partially compliant ☐ Explain ☐ Not applicable ☐

- 39. Members of the Audit Committee as a whole, and especially its Chairman, are appointed taking into account their knowledge and experience in accounting, auditing and risk management matters, both financial and non-financial.**

Compliant ☒ Partially compliant ☐ Explain ☐

- 40. Under the supervision of the Audit Committee, there is a unit that assumes the internal audit function ensuring the proper functioning of the information and internal control systems, which functionally reports to the non-executive Chairman of the Board or the Audit Committee.**

Compliant ☒ Partially compliant ☐ Explain ☐

- 41. The head of the unit responsible for the internal audit function should present the annual work plan to the audit committee for approval by the committee or the board, report directly to it on its implementation, including any incidents and limitations on scope arising in the course of its implementation, the results and follow-up of its recommendations, and submit an activities report to it at the end of each business year.**

Compliant ☒ Partially compliant ☐ Explain ☐ Not applicable ☐

- 42. In addition to those provided by law, the Audit Committee assumes responsibility for the following functions:**

1. In relation to information and internal control systems:

- a) Supervise and assess the preparation process and the integrity of financial and non-financial information, as well as the control and management systems for financial and non-financial risks relating to the company and, if applicable, the group, including operational, technological, legal, social, environmental, political, reputational and corruption-related risks, reviewing compliance with regulatory requirements, the adequate definition of the scope of consolidation and the correct application of accounting criteria.**
- b) Ensure the independence of the Internal Audit function; propose the selection, appointment and removal of the head of the Internal Audit service, as well as the budget of this service; approving or proposing approval to the Board of the annual internal audit orientation and work plan, making sure that its activity is mainly focused on relevant risks (including reputational risks); receive periodic information about its**

activities; and verify that Senior Management takes into account the conclusions and recommendations in its reports.

- c) Establish and supervise a mechanism that allows employees and other persons related to the company, such as directors, shareholders, suppliers, contractors or subcontractors, to report potentially significant irregularities, including financial, accounting or any other irregularities related to the company that they become aware of within the company or its group. This mechanism must guarantee confidentiality and, in any case, provide for scenarios where communications can be made anonymously, respecting the rights of the complainant and the reported party.
- d) Generally ensure that the policies and systems in place for internal control are effectively implemented in practice.

2. In relation to the external auditor:

- a) In case of the resignation of the external auditor, examine the circumstances that may have led to this.
- b) Ensure that the remuneration of the external auditor for his/her work does not compromise his/her quality or independence.
- c) Ensure that the company communicates any change in auditor through the CNMV and accompanies this with a statement about the possible existence of disagreements with the departing auditor and, if there were any disagreements, the nature of them.
- d) Ensure that the external auditor holds an annual meeting with the Board of Directors to inform them about the work undertaken and the development of the accounting and risk situation at the company.
- e) Ensure that the company and the external auditor respect the rules in force on the provision of services other than auditing services, the limits on the concentration of the auditor's business and, in general, the other rules applicable to the auditor's independence.

Compliant ☐ Partially compliant ☒ Explain ☐

The meeting referred to in section 2.d) of this recommendation is not held, since this responsibility is delegated in full to the Audit and Control Committee, and the external auditor is responsible for presenting this information to the members of the Board.

43. The Audit Committee may summon any employee or manager at the company, and even arrange for them to appear without any other manager present.

Compliant ☒ Partially compliant ☐ Explain ☐

44. Compliant ☐ Partially compliant ☐ Explain ☒ Not applicable ☐

To date, all directors at the company, including independent directors, have voted in favour of the transactions referred to in this recommendation, meaning that the step previous to those before the Audit and Control Committee is not considered necessary.

In any case, on the Board of Directors, members of the Audit and Control Committee may present their reflections and opinions, which will be taken into account by the Board at the time of making a decision.

45. The risk control and management policy identifies or determines at least:

- a) The different types of risk, both financial and non-financial, (including operational, technological, legal, social, environmental, political and reputational, including those related to corruption) that the company faces, including financial or economic, contingent liabilities and other off-balance-sheet risks.
- b) A tiered risk management and control model, including a specialised risk committee where sectoral rules require this or where the company deems it appropriate.
- c) The level of risk that the Company considers acceptable.
- d) The measures planned to mitigate the impact of the risks identified, should they materialise.
- e) The information and internal control systems that will be used to control and manage the aforementioned risks, including contingent liabilities or off-balance sheet risks.

Compliant ☒ Partially compliant ☐ Explain ☐

46. Under the direct supervision of the Audit Committee or, where appropriate, a specialised committee of the Board of Directors, there is an internal risk control and management function performed by an internal unit or department at the company that has been expressly attributed the following functions:

- a) Ensure the proper functioning of the control and risk management systems and, in particular, that all important risks affecting the Company are properly identified, managed, and quantified.
- b) Actively participate in the preparation of the risk strategy and in the important decisions about its management.
- c) Ensure that control and risk management systems adequately mitigate risks within the framework of the policy defined by the Board of Directors.

Compliant ☒ Partially compliant ☐ Explain ☐

- 47. The members of the Appointments and Remuneration Committee, or of the Appointments Committee and the Remuneration Committee, if they are separate, should be appointed ensuring that they have the knowledge, skills and experience suitable for the duties they are called upon to perform and the majority of the members should be independent directors.**

Compliant ☐ Partially compliant ☒ Explain ☐

The Appointments and Remuneration Committee is currently made up of two proprietary and two independent directors, one of whom is the Chairman.

FCC believes that the make up of the Appointments and Remuneration Committee, with two independent members out of a total of four, one of whom is also the Chairman, sufficiently guarantees the proper functioning of this Committee".

- 48. Large-cap companies should have a separate appointments committee and a separate remuneration committee.**

Compliant ☐ Explain ☒ Not applicable ☐

The two recommended committees are integrated into a single appointments and remuneration committee, as the Board of Directors believes that the combination of the two facilitates the carrying out of the duties assigned to them.

- 49. The Appointments Committee should consult with the Chairman of the Board of Directors and the CEO of the Company, especially on matters relating to executive directors.**

And any director may request the consideration of potential candidates to fill vacancies of Director from the Appointments Committee, if it finds them suitable in its opinion.

Compliant ☒ Partially compliant ☐ Explain ☐

- 50. The Remuneration Committee should carry out its duties independently and, in addition to the duties assigned by law, should have the following responsibilities:**

- a) To propose to the Board of Directors the basic conditions of senior management contracts.**
- b) To verify compliance with the remuneration policy established by the company.**
- c) To regularly review the remuneration policy applied to directors and senior executives, including the share based remuneration systems and their application, and ensure that their individual remuneration is in line with that paid to the other directors and senior executives at the Company.**
- d) To ensure that any conflicts of interest do not undermine the independence of the external advice provided to the committee.**
- e) To verify the information on directors' and senior executives' remuneration contained in the various corporate documents, including the annual directors remuneration report.**

Compliant ☒ Partially compliant ☐ Explain ☐

- 51. The remuneration committee should consult with the company's chairman and CEO, especially on matters relating to executive directors and senior executives.**

Compliant X Partially compliant ☐ Explain ☐

- 52. The rules governing the composition and operation of the supervision and control committees should be set out in the regulations of the Board of Directors and be consistent with those applicable to the legally obligatory committees in accordance with the above recommendations, including:**

- a) They should be composed exclusively of non-executive directors, with a majority of independent directors.**
- b) Their chairmen should be independent directors.**
- c) The Board of Directors should appoint the members of these committees, bearing in mind the knowledge, skills and experience of the directors and the duties of each committee, and should discuss their proposals and reports; and to report, at the first plenary session of the Board of Directors after its meetings, on its activity and should be accountable for the work carried out.**
- d) The committees may seek external advice, when they consider it necessary for the carrying out of their duties.**
- e) Minutes should be taken of their meetings and made available to all directors.**

Compliant ☐ Partially compliant ☐ Explain ☐ Not applicable X

- 53. Supervision of compliance with the company's environmental, social and corporate governance policies and rules, as well as internal codes of conduct, should be entrusted to one or more committees of the Board of Directors, which may be the audit committee, the appointments committee, a committee specialising in sustainability or corporate social responsibility or any other specialised committee that the Board of Directors, in the exercise of its powers of self-organisation, has decided to set up. Such a committee should be formed solely of non-executive directors, the majority of whom should be independent, and should be specifically attributed at least the duties indicated in the following recommendation.**

Compliant ☐ Partially compliant X Explain ☐

Although in the operations of the Board of Directors these skills are dealt with in the agenda of its committees, some of the duties indicated in the Recommendation are not formally attributed to one of its committees by the Regulations of the Board of Directors.

- 54. The minimal duties referred to in the above recommendation are as follows:**

- a) Overseeing compliance with the company's corporate governance rules and internal codes of conduct, and ensuring that the corporate culture is aligned with its purpose and values.**
- b) Overseeing the implementation of the general policy on economic-financial, non-financial and corporate reporting as well as communication with shareholders and investors, proxy advisors and other stakeholders. The way in which the institution communicates and interacts with small and medium-sized shareholders will also be monitored.**
- c) Regular evaluation and review of the Company's corporate governance system**

and environmental and social policy, in order for them to fulfil their aim of promoting the corporate interest and taking into account, as appropriate, the legitimate interests of other stakeholders.

- d) Ensuring that the company's environmental and social practices are in line with the established strategy and policy.
- e) The supervision and evaluation of the processes of relationship with the different stakeholders.

Compliant X Partially compliant ☐ Explain ☐

55. Sustainability policies on environmental and social issues should at least identify and include:

- a) The principles, commitments, objectives and strategy with regard to shareholders, employees, customers, suppliers, social issues, environment, diversity, accountability, respect for human rights and prevention of corruption and other unlawful actions.
- b) Methods or systems for monitoring compliance with policies, associated risks and their management.
- c) Mechanisms for monitoring non-financial risk, including those related to ethical and business conduct issues.
- d) Channels of communication, participation and dialogue with stakeholders.
- e) Responsible communication practices that avoid the manipulation of information and protect integrity and honour.

Compliant X Partially compliant ☐ Explain ☐

56. Directors' remuneration should be sufficient to attract and retain directors with the desired profile and to reward the dedication, qualifications and responsibility required for the position, but should not be so high as to compromise the independent judgement of non-executive directors.

Compliant X Explain ☐

57. Variable remuneration linked to the company's performance and personal performance, as well as compensation in the form of shares, options or rights to shares or instruments linked to the value of the share and long-term savings schemes such as pension plans, retirement systems or other social welfare systems, should be exclusively limited to executive directors.

The delivery of shares may be considered as remuneration to non-executive directors when it is subject to their remaining on the board. The foregoing shall not apply to the shares that the director needs to sell, if any, to meet the costs related to their acquisition.

Compliant X Partially compliant ☐ Explain ☐

58. In the case of variable remuneration, remuneration policies should include the necessary technical limits and precautions to ensure that said remuneration is related to the professional performance of its beneficiaries and is not simply a result of general market or sector trends or other similar circumstances.

And, in particular, that the variable components of remuneration:

- i. Should be linked to performance criteria that are predetermined and measurable, and these criteria should take into account the risk assumed in order to obtain a result.**
- ii. Should promote the sustainability of the company and include non-financial criteria that are appropriate for the creation of long-term value, such as compliance with the company's internal rules and procedures and its policies for risk control and management.**
- iii. Should be designed on the basis of a balance between the achievement of short-, medium- and long-term objectives, allowing performance to be rewarded for continued achievement over a period of time sufficient to assess their contribution to sustainable value creation, so that the elements used to measure that performance do not revolve solely around one-off, occasional or extraordinary events.**

Compliant ☒ Partially compliant ☐ Explain ☐ Not applicable ☐

59. The payment of variable components of remuneration is subject to sufficient verification that the performance or other conditions set out above have been effectively met. Entities shall include in the annual directors' remuneration report the criteria as to the time required and methods for such verification depending on the nature and characteristics of each variable component.

In addition, entities should consider the establishment of a malus clause based on the deferral for a sufficient period of time of the payment of a part of the variable components that can lead to their total or partial loss should an event occur prior to the time of payment that makes this advisable.

Compliant ☐ Partially compliant ☐ Explain ☒ Not applicable ☐

The CEO's variable is related to EBITDA, operating cash flow and individual objectives. This variable is approved once the Board of Directors has drawn up the accounts and approved the financial objectives.

60. Remuneration related to the Company's profit and loss should take into account any qualifications in the external auditor's report that reduce said profit and loss.

Compliant ☒ Partially compliant ☐ Explain ☐ Not applicable ☐

61. A significant percentage of the variable remuneration of executive directors should be linked to the delivery of shares or financial instruments tied to their value.

Compliant ☐ Partially compliant ☐ Explain ☒ Not applicable ☐

The FCC Group's remuneration policy does not include the delivery of shares or financial instruments linked to their value to its executive directors, as this is considered more appropriate.

- 62. Once the shares, options or financial instruments corresponding to the remuneration systems have been attributed, executive directors may not transfer ownership or exercise them until at least three years have passed.**

An exception is made where the director has, at the time of the transfer or exercise, a net economic exposure to share price changes of a market value equivalent to an amount of at least twice his or her annual fixed remuneration through the ownership of shares, options or other financial instruments.

The above will not apply to shares that the director needs to dispose of in order to meet the costs related to their acquisition or, after a favourable assessment from the appointments and remuneration committee, to address extraordinary situations that so require it.

Compliant ☐ Partially compliant ☐ Explain ☐ Not applicable ☒

- 63. Contractual agreements should include a clause allowing the company to claim reimbursement of the variable components of remuneration when the payment has not been in accordance with the performance conditions or when they have been paid on the basis of data which is subsequently proven to be inaccurate.**

Compliant ☐ Partially compliant ☐ Explain ☒ Not applicable ☐

Variable remuneration is approved by the Board of Directors once the parameters to which it is tied have been verified. It has not been considered necessary, both because of the volume of the remuneration and the time at which it is paid, to establish additional precautions.

- 64. Severance payments of payments for contract termination should not exceed a set amount equivalent to two years' total annual remuneration and should not be paid until the company has been able to verify that the director has met the criteria or conditions established for their receipt.**

For the purposes of this recommendation, termination or contractual termination payments include any payments that accrue or are payable as a result of or in connection with the termination of the director's contractual relationship with the company, including amounts not previously vested in long-term savings schemes and amounts paid under post-contractual non-compete agreements.

Compliant ☒ Partially compliant ☐ Explain ☐ Not applicable ☐

- a) Immediately disseminates these additional items and new resolutions proposed.
- b) Discloses the attendance card template or vote delegation form or distance voting form with the necessary modifications so that the new items on the agenda and alternative resolution proposals can be voted on under the same terms as those proposed by the Board of Directors.
- c) Submits all the alternative points or proposals to a vote and apply the same voting rules as applied to those prepared by the Board of Directors, including, in particular, assumptions or deductions on the meaning of the vote.
- d) After the General Shareholders' Meeting, communicate the breakdown of the vote on these additional items or alternative proposals.

Compliant ☐ Partially compliant ☒ Explain ☐ Not applicable ☐

Two different systems are used, for practical reasons, to count votes, all pursuant to the provisions of Article 20 of the Rules of the General Shareholders' Meeting, although the Chairman of the Board, in each specific case, may decide to apply the same counting system (Art. 20, section 4 of the Rules of the General Meeting).

11. If the company plans to pay out attendance premiums to the General Shareholders Meeting, a general policy on these premiums is established in advance and this policy is stable.

12. The Board of Directors performs its functions with unity of purpose and independence of judgment, treats all shareholders in the same position in the same way and is guided by the social interest, understood as the achievement of a profitable and sustainable business in the long term, which promotes its continuity and maximisation of the economic value of the company.

And in the pursuit of social interests, in addition to respect for the laws and regulations and conduct based on good faith, ethics and respect for commonly accepted uses and good practices, the company seeks to reconcile its own social interest with, as appropriate, the legitimate interests of its employees, its suppliers, its customers and those of the other stakeholders that may be affected, as well as the impact of the company's activities on the community as a whole and on the environment.

Compliant [X] Partially compliant [☐] Explain [☐]

13. The Board of Directors is the correct size to ensure it is effective and participative, meaning it is advisable to have between five and fifteen members.

Compliant [X] Explain [☐]

14. The Board of Directors should adopt a policy aimed at encouraging a suitable composition for the Board of Directors and it should:
- a) Is specific and verifiable.
 - b) ensure that proposed appointments and re-elections are based on a preliminary analysis of the powers required by the Board of Directors; and
 - c) promote the diversity of knowledge, experience, age and gender. For these purposes, measures that encourage the company to have a significant number of female senior managers are considered to be conducive to gender diversity.

The result of the preliminary analysis of powers required by the Board of Directors is included in the explanatory report issued by the Appointments Committee that is published when the General Shareholders Meeting is called and to which the ratification, appointment or re-election of each director is submitted.

The Appointments Committee will verify compliance with this policy and will be informed in the Annual Corporate Governance Report.

Compliant ☒ Partially compliant ☐ Explain ☐

15. Proprietary and independent directors represent a large majority of the Board of Directors and that the number of executive directors is the minimum necessary, taking into account the complexity of the corporate group and the shareholding of the executive directors in the Company's capital.

And that the number of female directors should account for at least 40% of the members of the Board of Directors by the end of 2022 and beyond, but no less than 30% before then.

Compliant ☐ Partially compliant ☒ Explain ☐

With regard to the percentage of female directors, the FCC's Board of Directors has four female directors out of a total of 14, giving a percentage of 28.57.

16. The percentage of proprietary directors compared to the total of non-executive directors is no greater than the proportion between the capital of the Company represented by these directors and other capital.

This criteria may be relaxed:

- a) At companies with a high capitalisation with few shareholdings considered significant by law.
- b) For companies in which there is a large number of shareholders represented on the Board of Directors who have no links to one another.

Compliant ☒ Explain ☐

17. The number of independent directors represents at least half the total number of directors.

However, when the company is not highly capitalised or when, even if it is, one shareholder or more shareholders are acting together, controlling more than 30% of the share capital, the number of independent directors represents at least one third of the total number of directors.

Compliant [☐] Explain [☒]

On its Board of Directors, FCC has three independent directors out of a total of fourteen members, representing 21 percent of the total number of directors. FCC believes that this percentage does not require an increase in the number of independent directors, considering the Company's very concentrated shareholding structure and the effective role of the three independent directors.

18. Companies publish the following information about directors on their website, and keep it up to date:

- a) Professional and biographical profile.
- b) Other Boards of Directors to which they belong, whether at listed companies or not, and the other paid activities they perform, regardless of their nature.
- c) Indication of the category of Director to which they belong, indicating, in the case of proprietary directors, the shareholder they represent or with whom they have links.
- d) Date of their first appointment as a Director of the Company, as well as subsequent re-elections.
- e) Shares in the company, and options on them, that they own.

Compliant [☐] Partially compliant [☒] Explain [☐]

The company makes available on its website the professional and biographical profile, other boards of directors to which the directors belong, the director's category, the date of his or her first appointment and the shares in the company, without considering it necessary, for the time being, to publicise other remunerated activities carried out by the director, whatever their nature.

19. The annual corporate governance report, after a check performed by the Appointments Committee, explains the reasons that proprietary directors have been appointed at the request of shareholders whose shareholding is less than 3% of the capital stock; and it explains the reasons that formal requests for presence on the Board from shareholders whose shareholding is equal to or greater than that of others, at whose request proprietary directors have been appointed, have not been met.

Compliant [☐] Partially compliant [☐] Explain [☐] Not applicable [☒]

20. Proprietary directors submit their resignation when the shareholder they represent fully transfers their shareholding. They also do so, in the corresponding number, when said shareholder reduces their shareholding to a level that requires a reduction in the number of their proprietary directors.

Compliant ☒ Partially compliant ☐ Explain ☐ Not applicable ☐

21. The Board of Directors does not propose the removal of any independent director before the end of the statutory period for which they were appointed, unless there is just cause, identified by the Board following in a report from the Appointments and Remuneration Committee. In particular, it shall be considered that there is just cause when the director first occupies new positions or contracts new obligations that prevent him/her from dedicating the necessary time to the performance of the duties assigned to the position of director, breaches the duties inherent to the position in question or incurs in any of the circumstances resulting in him/her losing his/her status as an independent director, pursuant to the provisions of the applicable legislation.

The removal of independent directors may also be proposed as a result of takeovers, mergers or other similar corporate transactions that involve a change in the capital structure of the company, when these changes in the structure of the Board of Directors can be attributed to the criteria of proportionality indicated in recommendation 16.

Compliant ☒ Explain ☐

22. Companies should establish rules requiring directors to report and, where appropriate, resign when situations arise affecting them, whether or not this is related to their actions in the company itself, which could be harmful to the credit and reputation of the company. This is in addition to the specific requirement of informing the Board of Directors of any criminal proceedings in which they are under investigation, as well as the progress of any such proceedings.

And, having been informed of or otherwise having become aware of any of the situations mentioned in the previous paragraph, the board should examine the case as soon as possible. It should also, in view of the specific circumstances, decide, after a report from the appointments and remuneration committee, whether or not to adopt any measures, such as opening an internal investigation, requesting the resignation of the director or proposing his or her dismissal. And to report on the matter in the annual corporate governance report, unless there are special circumstances justifying this, which should be recorded in the minutes. This is notwithstanding the information that the company must disclose, where appropriate, at the time of adopting the corresponding measures.

Compliant ☒ Partially compliant ☐ Explain ☐

23. All directors clearly express their opposition when they consider that any proposed decision submitted to the Board of Directors may be contrary to the corporate interest. The same applies, in a special way, to independents and other directors who are not affected by any potential conflict of interests, in the case of decisions that may harm shareholders not represented on the Board of Directors.

When the Board of Directors adopts significant or repeated decisions about which the director would have made reservations, he/she shall draw the necessary conclusions and, if he chooses to resign, explain his/her reasons for doing so in the letter indicated in the following recommendation.

This recommendation also applies to the secretary of the Board of Directors, even if he/she does not have the status of a director.

Compliant ☒ Partially compliant ☐ Explain ☐ Not applicable ☐

24. When, either by resignation or by resolution of the general meeting, a director resigns before the end of their term of office, they should sufficiently explain the reasons for their resignation or, in the case of non-executive directors, their views on the reasons for the board's decision to remove them, in a letter sent to all members of the Board of Directors.

And, notwithstanding the fact that all the above is disclosed in the annual corporate governance report, to the extent that it is relevant for investors, the company should publish the resignation as soon as possible, including a sufficient reference to the reasons or circumstances provided by the director.

Compliant ☒ Partially compliant ☐ Explain ☐ Not applicable ☐

25. The Appointments Committee ensures that non-executive directors have sufficient time available for the proper performance of their duties.

And the Rules of the Board establish the maximum number of Boards on which its directors may serve.

Compliant ☐ Partially compliant ☒ Explain ☐

In Article 21.4 of the Rules of the Board of Directors, the Company establishes that "Directors must inform the Appointments and Remuneration Committee of their other professional obligations, should they could interfere with their dedication of the position, and the Board shall establish, at the proposal of the Appointments and Remuneration Committee, the number of Boards of Directors on which directors may serve".

Since the aforementioned Committee has not stipulated this number to date, the Company believes that it is partially compliant with the recommendation.

The Company, for the time being, has not set the maximum number of Boards to which each director may belong, since the dedication of the directors to the company has proven to be adequate, without it being necessary, therefore, to define a number.

26. The Board of Directors meets with the necessary frequency to perform its duties effectively and, at least, eight times a year, following the programme of dates and matters established at the beginning of the business year, with each director allowed to individually propose other items on the agenda not initially provided for.

Compliant ☒ Partially compliant ☐ Explain ☐

27. The absence of directors is limited to indispensable cases and quantified in the annual corporate governance report. And should such absences occur, the directors appoint a proxy with instructions.

Compliant ☒ Partially compliant ☐ Explain ☐

28. When the directors or the secretary express concern about any proposal or, in the case of directors, about the progress of the company and these concerns are not resolved by the Board of Directors, at the request of the person expressing them, these shall be recorded in the minutes.

Compliant ☒ Partially compliant ☐ Explain ☐ Not applicable ☐

29. The Company establishes the appropriate channels so that directors can obtain the necessary advice for them to perform their duties, including, if the circumstances so require, external advice charged to the company.

Compliant ☒ Partially compliant ☐ Explain ☐

30. Regardless of the knowledge required by directors in the exercise of their duties, the companies also offer the directors knowledge refresher programmes when the circumstances so advise.

Compliant ☒ Explain ☐ Not applicable ☐

31. The agenda of meetings clearly indicates the points on which the Board of Directors must adopt a decision or resolution so that the directors can study or collect, in advance, the information necessary for its adoption.

When, exceptionally, for reasons of urgency, the Chairman wishes to submit decisions or resolutions that do not appear on the agenda for approval by the Board of Directors, the prior and express consent of the majority of the directors present shall be required, duly reflected in the minutes.

Compliant ☒ Partially compliant ☐ Explain ☐

32. Directors are periodically informed of changes in the shareholding structure and of the opinion that significant shareholders, investors and rating agencies have about the company and its Group.

Compliant ☒ Partially compliant ☐ Explain ☐

33. The chairman, as the person responsible for the effective functioning of the Board of Directors, in addition to exercising the duties assigned to him by law and in the bylaws, prepares and submits a programme of dates and matters to be discussed to the Board of Directors; organises and coordinates the periodic assessment of the board, as well as, where appropriate, the company's chief executive; is responsible for the direction of the board and the effectiveness of its functioning; ensures that sufficient discussion time is devoted to strategic issues, and agrees and reviews knowledge refresher programmes for each director, when the circumstances so advise.

Compliant ☒ Partially compliant ☐ Explain ☐

34. When there is a coordinating director, the Bylaws or the Rules of the Board of Directors, in addition to the powers that correspond to him by Law, assign the following powers thereto: preside over the Board of Directors in the absence of the Chairman and Deputy Chairman, as applicable; echoes the concerns of non-executive directors; maintains contact with investors and shareholders to obtain their points of view to form an opinion on their concerns, particularly in relation to the corporate governance of the company; and coordinates the Chairman's succession plan.

35. The secretary of the Board of Directors ensures that the Board of Directors takes into account the recommendations on good governance contained in the Code of Good Governance applicable to company in its actions and decisions.

Compliant ☒ Explain ☐

36. The Board of Directors assesses, once a year, and adopts, where appropriate, an action plan that corrects any shortcomings detected regarding:
- a) The quality and efficiency of the functioning of the Board of Directors.
 - b) The functioning and composition of its committees.
 - c) Diversity in the composition and powers of the Board of Directors.
 - d) The performance of the Chairman of the Board of Directors and the Chief Executive of the company.
 - e) The performance and contribution of each director, paying particular attention to those responsible for the different Board Committees.

To perform the assessment of the different committees, the report submitted to the Board of Directors will be used, and for the Board assessment, the report submitted to the Appointments Committee.

Every three years, the Board of Directors will be assisted by an external consultant in performing the assessment, whose independence shall be verified by the Appointments Committee.

The business relationships that the consultant or any company in its group may have with the company or any Group company shall be broken down in the Annual Corporate Governance Report.

The process and the areas assessed shall be described in the Annual Corporate Governance Report.

Compliant [] Partially compliant [X] Explain []

The Board of Directors internally performs the annual assessment of the efficiency of its functioning, its committees, as well as that of the Chairman of the Board of Directors (non-executive) and the CEO.
The Company believes that the conclusions drawn during the internal assessment make it possible to sufficiently correct any shortcomings detected or improvements in the functions assigned to the Board.
The assessment with the help of an external consultant has been carried out twice in the past. The Board shall assess the suitability of requesting such external assistance each business year.

37. When there is an executive committee, at least two non-executive directors should sit on it, at least one of whom should be independent and its secretary should be the secretary of the Board of Directors.

Compliant [] Partially compliant [X] Explain [] Not applicable []

The secretary of the Executive Committee is the same as the secretary to the Board. However, in the composition of this committee, there are no independent directors, whereas there are three such directors on the Board.
All decisions taken by the Executive Committee are reported to the Board.
On this Committee, independent directors may request as many clarifications or comments as they deem appropriate.
Given the continuous control that the Board exercises over the Executive Committee, it has not been considered necessary to include independent directors on this Committee.

38. The Board of Directors is always aware of the matters discussed and the decisions taken by the Executive Committee and that all the members of the Board of Directors receive a copy of the minutes of the Executive Committee meetings.

39. Members of the Audit Committee as a whole, and especially its Chairman, are appointed taking into account their knowledge and experience in accounting, auditing and risk management matters, both financial and non-financial.

Compliant ☒ Partially compliant ☐ Explain ☐

40. Under the supervision of the Audit Committee, there is a unit that assumes the internal audit function ensuring the proper functioning of the information and internal control systems, which functionally reports to the non-executive Chairman of the Board or the Audit Committee.

Compliant ☒ Partially compliant ☐ Explain ☐

41. The head of the unit responsible for the internal audit function should submit the annual work plan to the audit committee for approval by the committee or the board, report directly to it on its implementation, including any incidents and limitations on scope arising in the course of its implementation, the results and follow-up of its recommendations, and submit an activities report to it at the end of each business year.

Compliant ☒ Partially compliant ☐ Explain ☐ Not applicable ☐

42. In addition to those provided by law, the Audit Committee assumes responsibility for the following functions:

1. In relation to information and internal control systems:
 - a) Supervise and assess the preparation process and the integrity of financial and non-financial information, as well as the control and management systems for financial and non-financial risks relating to the company and, where applicable, the group, including operational, technological, legal, social, environmental, political, reputational and corruption-related risks, reviewing compliance with regulatory requirements, the adequate definition of the scope of consolidation and the correct application of accounting criteria.
 - b) Ensure the independence of the Internal Audit function; propose the selection, appointment and removal of the head of the Internal Audit service, as well as the budget of this service; approving or proposing approval to the Board of the annual internal audit orientation and work plan, making sure that its activity is mainly focused on relevant risks (including reputational risks); receive periodic information about its activities; and verify that Senior Management takes into account the conclusions and recommendations in its reports.
 - c) Establish and supervise a mechanism that allows employees and other persons related to the company, such as directors, shareholders, suppliers, contractors or subcontractors, to report potentially significant irregularities, including financial, accounting or any other irregularities related to the company that they notice within the company or its group. This mechanism must guarantee confidentiality and, in any case, provide for cases in which communications can be made anonymously, respecting the rights of the complainant and the reported.
 - d) Generally ensure that the policies and systems in place for internal control are effectively implemented in practice.
2. In relation to the external auditor:
 - a) In case of the resignation of the external auditor, examine the circumstances that may have led to this.
 - b) Ensure that the remuneration of the external auditor for his/her work does not compromise his/her quality or independence.
 - c) Ensure that the company communicates any change in auditor through the CNMV and accompanies this with a statement about the possible existence of disagreements with the departing auditor and, if there were any disagreements, the nature of them.
 - d) Ensure that the external auditor holds an annual meeting with the Board of Directors to inform them about the work undertaken and the evolution of the accounting and risk situation at the company.
 - e) Ensure that the company and the external auditor respect the rules in force on the provision of services other than auditing services, the limits on the concentration of the auditor's business and, in general, the other rules applicable to the auditor's independence.

The meeting referred to in section 2.d) of this recommendation is not held, since this responsibility is delegated in full to the Audit and Control Committee, and the external auditor is responsible for presenting this information to the members of the Board.

43. The Audit Committee may summon any employee or manager at the company, and even arrange for them to appear without any other manager present.

Compliant ☒ Partially compliant ☐ Explain ☐

44. The Audit Committee is informed about the structural and corporate modifications that the company plans to perform for its analysis and preliminary report to the Board of Directors on its economic conditions and its accounting impact and, especially, where appropriate, on the proposed exchange ratio.

Compliant ☐ Partially compliant ☐ Explain ☒ Not applicable ☐

To date, all directors at the company, including independent directors, have voted in favour of the transactions referred to in this recommendation, meaning that the step previous to those before the Audit and Control Committee is not considered necessary.
In any case, on the Board of Directors, members of the Audit and Control Committee may present their reflections and opinions, which will be taken into account by the Board at the time of making a decision.

45. The risk control and management policy identifies or determines at least:

- The different types of risk, both financial and non-financial, (including operational, technological, legal, social, environmental, political and reputational, including those related to corruption) that the company faces, including financial or economic, contingent liabilities and other off-balance-sheet risks.
- A tiered risk management and control model, including a specialised risk committee where sectoral rules require this or where the company deems it appropriate.
- The level of risk that the Company considers acceptable.
- The measures planned to mitigate the impact of the risks identified, should they materialise.
- The information and internal control systems that will be used to control and manage the aforementioned risks, including contingent liabilities or off-balance sheet risks.

Compliant ☒ Partially compliant ☐ Explain ☐

46. Under the direct supervision of the Audit Committee or, where appropriate, a specialised committee of the Board of Directors, there is an internal risk control and management function performed by an internal unit or department at the company that has been expressly attributed the following functions:

- a) Ensure the proper functioning of the control and risk management systems and, in particular, that all important risks affecting the Company are properly identified, managed, and quantified.
- b) Actively participate in the preparation of the risk strategy and in the important decisions about its management.
- c) Ensure that control and risk management systems adequately mitigate risks within the framework of the policy defined by the Board of Directors.

Compliant ☒ Partially compliant ☐ Explain ☐

47. The members of the Appointments and Remuneration Committee, or of the Appointments Committee and the Remuneration Committee, if they are separate, should be appointed ensuring that they have the knowledge, skills and experience suitable for the duties they are called upon to perform and the majority of the members should be independent directors.

Compliant ☐ Partially compliant ☒ Explain ☐

The Appointments and Remuneration Committee is currently made up of two proprietary and two independent directors, one of whom is the Chairman. FCC believes that the make up of the Appointments and Remuneration Committee, with two independent members out of a total of four, one of whom is also the Chairman, sufficiently guarantees the proper functioning of this Committee".

48. Large-cap companies should have a separate appointments committee and a separate remuneration committee.

Compliant ☐ Explain ☒ Not applicable ☐

The two recommended committees are integrated into a single appointments and remuneration committee, as the Board of Directors believes that the combination of the two facilitates the carrying out of the duties assigned to them.

49. The Appointments Committee should consult with the Chairman of the Board of Directors and the CEO of the Company, especially on matters relating to executive directors.

And any director may request the consideration of potential candidates to fill vacancies of Director from the Appointments Committee, if it finds them suitable in its opinion.

Compliant ☒ Partially compliant ☐ Explain ☐

50. The Remuneration Committee should carry out its duties independently and, in addition to the duties assigned by law, should have the following responsibilities:
- a) To propose to the Board of Directors the basic conditions of senior management contracts.
 - b) To verify compliance with the remuneration policy established by the company.
 - c) To regularly review the remuneration policy applied to directors and senior executives, including the share based remuneration systems and their application, and ensure that their individual remuneration is in line with that paid to the other directors and senior executives at the Company.
 - d) To ensure that any conflicts of interest do not undermine the independence of the external advice provided to the committee.
 - e) To verify the information on directors' and senior executives' remuneration contained in the various corporate documents, including the annual directors remuneration report.
- Compliant [X] Partially compliant [] Explain []
51. The remuneration committee should consult with the company's chairman and CEO, especially on matters relating to executive directors and senior executives.
- Compliant [X] Partially compliant [] Explain []
52. The rules governing the composition and operation of the supervision and control committees should be set out in the regulations of the Board of Directors and be consistent with those applicable to the legally obligatory committees in accordance with the above recommendations, including:
- a) They should be composed exclusively of non-executive directors, with a majority of independent directors.
 - b) Their chairmen should be independent directors.
 - c) The Board of Directors should appoint the members of these committees, bearing in mind the knowledge, skills and experience of the directors and the duties of each committee, and should discuss their proposals and reports; and to report, at the first plenary session of the Board of Directors after its meetings, on its activity and should be accountable for the work carried out.
 - d) The committees may seek external advice, when they consider it necessary for the carrying out of their duties.
 - e) Minutes should be taken of their meetings and made available to all directors.
- Compliant [] Partially compliant [] Explain [] Not applicable [X]

53. Supervision of compliance with the company's environmental, social and corporate governance policies and rules, as well as internal codes of conduct, should be entrusted to one or more committees of the Board of Directors, which may be the audit committee, the appointments committee, a committee specialising in sustainability or corporate social responsibility or any other specialised committee that the Board of Directors, in the exercise of its powers of self-organisation, has decided to set up. Such a committee should be composed solely of non-executive directors, the majority of whom should be independent, and should be specifically attributed the minimum functions indicated in the following recommendation.

Compliant [☐] Partially compliant [☒] Explain [☐]

Although in the operations of the Board of Directors these skills are dealt with in the agenda of its committees, some of the duties indicated in the Recommendation are not formally attributed to one of its committees by the Regulations of the Board of Directors.

54. The minimum duties referred to in the above recommendation are as follows:

- a) Overseeing compliance with the company's corporate governance rules and internal codes of conduct, and ensuring that the corporate culture is aligned with its purpose and values.
- b) Overseeing the implementation of the general policy on economic-financial, non-financial and corporate reporting as well as communication with shareholders and investors, proxy advisors and other stakeholders. The way in which the institution communicates and interacts with small and medium-sized shareholders will also be monitored.
- c) Regular evaluation and review of the Company's corporate governance system and environmental and social policy, in order for them to fulfil their aim of promoting the corporate interest and taking into account, as appropriate, the legitimate interests of other stakeholders.
- d) Monitoring that the company's environmental and social practices are in line with the strategy and policy.
- e) The supervision and evaluation of the processes of relationship with the different stakeholders.

Compliant [X] Partially compliant [☐] Explain [☐]

55. Sustainability policies on environmental and social issues should at least identify and include:

- a) The principles, commitments, objectives and strategy with regard to shareholders, employees, customers, suppliers, social issues, environment, diversity, accountability, respect for human rights and prevention of corruption and other unlawful actions.
- b) Methods or systems for monitoring compliance with policies, associated risks and their management.
- c) Mechanisms for monitoring non-financial risk, including those related to ethical and business conduct issues.
- d) Channels of communication, participation and dialogue with stakeholders.
- e) Responsible communication practices that avoid the manipulation of information and protect integrity and honour.

Compliant ☒ Partially compliant ☐ Explain ☐

56. Directors' remuneration should be sufficient to attract and retain directors with the desired profile and to reward the dedication, qualifications and responsibility required for the position, but should not be so high as to compromise the independent judgement of non-executive directors.

Compliant ☒ Explain ☐

57. Variable remuneration linked to the company's performance and personal performance, as well as compensation in the form of shares, options or rights to shares or instruments linked to the value of the share and long-term savings schemes such as pension plans, retirement systems or other social welfare systems, should be exclusively limited to executive directors.

The delivery of shares may be considered as remuneration to non-executive directors when it is subject to their remaining on the board. The foregoing shall not apply to the shares that the director needs to sell, if any, to meet the costs related to their acquisition.

Compliant ☒ Partially compliant ☐ Explain ☐

58. In the case of variable remuneration, remuneration policies should include the necessary technical limits and precautions to ensure that said remuneration is related to the professional performance of its beneficiaries and is not simply a result of general market or sector trends or other similar circumstances.

And, in particular, that the variable components of remuneration:

- a) Should be linked to performance criteria that are predetermined and measurable, and these criteria should take into account the risk assumed in order to obtain a result.
- b) Should promote the sustainability of the company and include non-financial criteria that are appropriate for the creation of long-term value, such as compliance with the company's internal rules and procedures and its policies for risk control and management.
- c) Should be designed on the basis of a balance between the achievement of short-, medium- and long-term objectives, allowing performance to be rewarded for continued achievement over a period of time sufficient to assess their contribution to sustainable value creation, so that the elements used to measure that performance do not revolve solely around one-off, occasional or extraordinary events.

Compliant ☒ Partially compliant ☐ Explain ☐ Not applicable ☐

59. The payment of variable components of remuneration is subject to sufficient verification that the performance or other conditions set out above have been effectively met. Entities shall include in the annual directors' remuneration report the criteria as to the time required and methods for such verification depending on the nature and characteristics of each variable component.

In addition, institutions should consider the establishment of a malus clause based on the deferral for a sufficient period of time of the payment of a part of the variable components that entails their total or partial loss should an event occur prior to the time of payment that makes it advisable to do so.

Compliant ☐ Partially compliant ☐ Explain ☒ Not applicable ☐

The CEO's variable is related to EBITDA, operating cash flow and individual objectives. This variable is approved once the Board of Directors has drawn up the accounts and approved the financial objectives.

60. Remuneration related to the Company's profit and loss should take into account any qualifications in the external auditor's report that reduce said profit and loss.

Compliant ☒ Partially compliant ☐ Explain ☐ Not applicable ☐

61. A significant percentage of the variable remuneration of executive directors should be linked to the delivery of shares or financial instruments tied to their value.

Compliant ☐ Partially compliant ☐ Explain ☒ Not applicable ☐

The FCC Group's remuneration policy does not include the delivery of shares or financial instruments linked to their value to its executive directors, as this is considered more appropriate.

62. Once the shares, options or financial instruments corresponding to the remuneration systems have been attributed, executive directors may not transfer ownership or exercise them until at least three years have elapsed.

An exception is made where the director has, at the time of the transfer or exercise, a net economic exposure to share price changes of a market value equivalent to an amount of at least twice his or her annual fixed remuneration through the ownership of shares, options or other financial instruments.

The above will not apply to shares that the director needs to dispose of in order to meet the costs related to their acquisition or, after a favourable assessment from the appointments and remuneration committee, to address extraordinary situations that so require it.

Compliant [] Partially compliant [] Explain [] Not applicable [X]

63. Contractual agreements should include a clause allowing the company to claim reimbursement of the variable components of remuneration when the payment has not been in accordance with the performance conditions or when they have been paid on the basis of data which is subsequently proven to be inaccurate.

Compliant [] Partially compliant [] Explain [X] Not applicable []

Variable remuneration is approved by the Board of Directors once the parameters to which it is tied have been verified. It has not been considered necessary, both because of the volume of the remuneration and the time at which it is paid, to establish additional precautions.

64. Severance payments of payments for contract termination should not exceed a set amount equivalent to two years' total annual remuneration and should not be paid until the company has been able to verify that the director has met the criteria or conditions established for their receipt.

For the purposes of this recommendation, termination or contractual termination payments include any payments that accrue or are payable as a result of or in connection with the termination of the director's contractual relationship with the company, including amounts not previously vested in long-term savings schemes and amounts paid under post-contractual non-compete agreements.
