5. RULES OF CONDUCT IN RELATION TO THE SECURITIES AND INSTRUMENTS CONCERNED

5.1 Communication of operations

In general and without prejudice to the obligations of direct communication, if any, to the National Securities Market Commission (the "CNMV"), the Persons with Managerial Responsibility shall notify the Company (through the Monitoring Committee) of transactions relating to Affected Securities and Instruments executed on their own account or by their Closely Associated Persons, within three (3) trading days following the execution of the transaction. The notification must describe such transactions, stating the date, quantity, price and market on which they were carried out. A model template for the notification of personal transactions in Affected Securities and Instruments carried

out by Covered Persons or Closely Associated Persons is attached as Annex II to the Internal Regulations of Conduct.

Without prejudice to the foregoing, Persons with Managerial Responsibility shall not be required to make the notifications referred to in this section 5 when, within one (1) calendar year, the total amount of transactions in Affected Securities and Instruments executed for their own account or for the account of their Closely Associated Persons does not exceed the amount of 20,000 euros.

In any case, when required by the Company, Directors shall inform the Company of the proportion of voting rights they hold at any time in the Company, as well as of the financial instruments giving the right to acquire or transfer shares with voting rights attributed to them. The Monitoring Committee shall keep a record of the various notifications made in accordance with the provisions of the preceding paragraphs.

5.2 Portfolio management contracts

It will also be necessary to declare transactions ordered, without any intervention by the Persons with Managerial Responsibility or their Closely Associated Persons, by the entities to which these persons are entrusted with the stable management of their securities portfolios.

5.3 Temporary operating ban and restricted periods of operation

Subject Persons may not carry out on their own account or on behalf of a third party, directly or indirectly, transactions involving Affected Securities and Instruments or with derivative instruments or other related financial instruments, in the following cases:

- during the thirty calendar days prior to the date of publication of an interim or annual financial report of FCC. The estimated dates of publication of results, to which appropriate disclosure shall be made, shall for these purposes be such dates as FCC may determine generally; and
- at such other times or for such other periods as may be determined by the Board of Directors or the Monitoring Committee, which shall be communicated as far in advance as possible.

The Monitoring Committee may, exceptionally, authorise the carrying out of the operations indicated during the periods indicated when the specific operation cannot be carried out at any other time, in any of the following cases:

- a) on a case-by-case basis, where there are exceptional circumstances, such as severe financial difficulties, requiring the immediate sale of Affected Securities and Instruments, or derivatives or other financial instruments linked thereto;
- b) where transactions are negotiated under or in connection with an employee stock option or savings plan or in connection with the qualification or subscription of shares; or
- c) where transactions are negotiated in which there is no change in the beneficial ownership of the security in question.

5.4 Prohibition of market manipulation

Subject Persons and any employees or officers of the FCC Group shall refrain from manipulating or attempting to manipulate the market.

Market manipulation shall include the following activities, without prejudice to any others that the applicable regulations or competent bodies (in particular the CNMV) list or describe as a specific practice contrary to the free formation of prices.

- a) Executing a transaction, giving a trade order or any other conduct that:

- (i) transmits or is likely to transmit false or misleading signals as to the supply of, demand for, or price of, one or more Affected Securities and Instruments; or
- (ii) fixes or is likely to fix at an abnormal or artificial level the price of one or more Affected Securities and Instruments.

Unless the person who entered into the transaction or gave the order to trade or engaged in any other conduct demonstrates that such transaction, order or conduct was entered into for legitimate reasons and in accordance with a market practice accepted by the CNMV.

- b) Executing a transaction, giving a trading order or any other activity or conduct that affects or may affect, by means of fictitious devices or any other form of deception or contrivance, the price of one or more Affected Securities and Instruments.
- c) Disseminating information through the media, including the internet, or by any other means, thereby transmitting or being likely to transmit false or misleading signals as to the supply of, demand for, or price of one or more Affected Securities and Instruments, or thereby being likely to fix at an abnormal or artificial level the price of one or more Affected Securities and Instruments, including the dissemination of rumours, where the disseminator knows or ought to have known that the information was false or misleading.
- d) transmitting false or misleading information or providing false data in relation to a benchmark, where the transmitter or provider of the data knew or ought to have known that it was false or misleading, or any other conduct involving manipulation of the calculation of a benchmark.

Market conduct or practices accepted by the competent authorities in accordance with the criteria set out in the applicable regulations are excluded from this prohibition.

5.5 Archive of communications made

Communications, notifications and any other action related to the obligations contained in the Internal Code of Conduct shall be duly filed.

The data in these files shall be kept strictly confidential.

6. RULES OF CONDUCT IN RELATION TO INSIDE INFORMATION

6.1 General provision

Subject Persons and, in general, persons in possession of Inside Information or Significant Information shall strictly comply with the provisions of the Market Abuse Regulation, the Securities Markets Act and other applicable legislation, in addition to adopting the appropriate measures to prevent such information from being subject to abusive or unfair use.

6.2 Prohibition of use

Persons in possession of Inside Information:

- a) They shall refrain from acquiring, transferring or assigning for their own account or for the account of others, directly or indirectly, the Affected Securities and Instruments or any other security, financial instrument or contract of any kind, whether traded or not on a regulated market or not, having as its underlying the Affected Securities and Instruments to which the Inside Information refers. The use of this type of information to cancel or modify an order relating to the Affected Securities and Instruments to which the information refers, when the order was given before the interested party became aware of the Inside Information, shall also be considered to be a transaction involving Inside Information. They must also refrain from the mere attempt to carry out any of the foregoing transactions.

The preparation and execution of transactions whose existence in itself constitutes Inside Information, as well as transactions carried out in compliance with an obligation, which has already expired, to acquire or dispose of such Affected Securities and Instruments, when this obligation is provided for in an agreement entered into before the person with Inside Information was in possession of such information, are exempted. Transactions carried out in accordance with the applicable regulations are also exempted.

It is hereby stated that the delivery of shares or share options of the Company to Affected Persons who have Inside Information by virtue of an obligation that has already expired, within the framework of the remuneration systems approved by the Company and not in order to circumvent the prohibition on Insider Trading shall not be deemed to be included in this section.

- b) They shall not disclose such Inside Information to third parties unless this is necessary for the responsible exercise of their work, profession, position or duties, and in accordance with the requirements set out in the Internal Code of Conduct.
- c) They shall not recommend or induce any third party to acquire, transfer or dispose of Affected Securities and Instruments or to cancel or modify an order relating thereto, or to cause another to acquire, transfer, dispose of, cancel or modify them, all on the basis of Inside Information.

Subsequent disclosure of such recommendations or inducements shall also constitute unlawful disclosure of Inside Information where the person disclosing the recommendation or inducement knew or ought to have known that it was based on Inside Information.

Where the person is a legal person, this paragraph shall also apply to natural persons who participate in the decision to acquire, transfer or dispose of, or cancel or modify an order relating to the Affected Securities and Instruments for the account of the legal person concerned.

- d) In general, they shall comply with the provisions laid down in the applicable regulations and in the Internal Code of Conduct.

6.3 Procedure and Initialists Lists

During the phases of study or negotiation of any legal or financial transaction whose dissemination may appreciably influence the price of the securities of FCC or its Subsidiaries, knowledge of the information must be strictly limited to those persons, internal or external to the organisation, whose participation is essential and, consequently, access to such information must be denied to persons other than those who should have access to it in the exercise of their functions.

For these purposes, the persons responsible for the area in which the Inside Information is generated or received must inform the Monitoring Committee, on a case-by-case basis and as soon as this circumstance arises, of the corresponding event, transaction or draft decision, as well as of the persons inside and outside the FCC Group who are informed of the existence of the Inside Information and who have been granted total or partial access to said information.

Based on the foregoing, the Monitoring Committee shall maintain a register of insiders (Insider List) in strict compliance with the provisions of the Market Abuse Regulation, the Securities Markets Act and other applicable legislation. The List of Insiders shall be updated (i) when there is a change in the reasons for which a person appears on the List of Insiders; (ii) when it is necessary to add a new person to the List of Insiders; and (iii) when a person on the List of Insiders ceases to have access to Inside Information; in such case, the date on which this circumstance occurs shall be recorded.

The content and format of the List of Insiders shall, in all cases, comply with the applicable regulations.

The Monitoring Committee shall expressly warn the persons included in the List of Insiders of the nature of the information and their duty of confidentiality, of the prohibition of its use and the sanctions derived from its non-compliance, among other issues.

Insiders must also be informed of their inclusion in the List of Insiders and of the other details provided for in data protection legislation.

In the event that there is an abnormal evolution of the volumes contracted or prices traded and there are reasonable indications that such evolution is occurring as a result of a premature, partial or distorted dissemination of the Inside Information, the Company shall take the necessary measures to disseminate, as soon as possible, a communication through the CNMV to inform, in a clear and precise manner, of the status of the transaction in progress or containing a preview of the information to be provided.

6.4 Treatment

Those in possession of Inside Information must safeguard all information or data of which they have knowledge relating to FCC, the FCC Group or the Affected Securities and Instruments, without prejudice to their duty to communicate and cooperate with the judicial or administrative authorities under the terms established by law.

They shall also prevent such data or information from being used abusively or unfairly, shall report any cases in which this has occurred and shall immediately take the necessary measures to prevent, avoid and, where appropriate, correct any consequences that may arise.

The head of the area or department in which the Inside Information is generated or received shall assign a code name to the transaction to which the Inside Information refers. This name shall be used in all communications relating to such transaction or information in such a way that the parties involved and the characteristics of the transaction or information cannot be identified.

Access to Inside Information shall be limited to persons on the Insider List for the relevant transaction. Inclusion on the Insiders List allows access to Inside Information.

The necessary security measures shall be established to ensure the custody, filing, access, reproduction and distribution of Inside Information, in accordance with the restrictive rules contained in the Internal Code of Conduct, the Market Abuse Regulation, the Securities Markets Act and other applicable regulations.

The transmission of Inside Information shall be carried out in such a way as to prevent such information from becoming known to persons outside the Insiders List in relation to the transaction in question.

6.5 Transmission to third parties

Disclosure of Inside Information to third parties outside FCC shall be restricted as much as possible.

When Inside Information is transmitted to external third parties, the following measures shall be taken:

- a) Prior to transmission, external recipients (unless they are subject to a legal, statutory or professional regime that includes a duty of confidentiality) must sign a confidentiality undertaking in which they declare to FCC that they are aware of the privileged nature of the information to be transmitted, In the latter case, they must remind the new recipient of the confidential nature of the information and sign a new confidentiality agreement equivalent to the one with FCC, a copy of which shall be sent to FCC.
- b) The content and implications of the confidentiality undertaking shall be explained orally to external recipients, and in particular in the case of third parties who may not be familiar with the applicable legal regime.

- c) The obligation of confidentiality of the external third party shall be maintained until the Monitoring Committee so determines, or until all the essential elements of the Inside Information have become public knowledge, i.e. until it has been announced to the market by means of the corresponding "inside information" communication and the necessary time has elapsed for the market to know the full extent of the Inside Information.
- d) The obligation of confidentiality shall also apply to the following persons and entities: (i) those persons external to FCC who are contacted at a preliminary stage and to whom the general outlines of the transaction are presented in order to request offers of financing or advice but who will not ultimately participate in the transaction. In this regard, the warning about the privileged nature of the information shall be reiterated when the entity is notified that it has not been awarded the financing or advice; and (ii) those external recipients of the Inside Information who cease to provide their services to the transferor before the transaction in question is concluded, suspended or cancelled.

6.6 Dissemination of Inside Information

Without prejudice to the obligations regarding Inside Information and the duty to safeguard Inside Information regulated in this section of the Internal Regulations of Conduct, the Company shall make public, as soon as possible, the Inside Information that directly concerns it, and shall inform the CNMV thereof. It shall ensure that Inside Information is made public in a manner that allows prompt access and a full, correct and timely assessment of the information by the public. The content of the communication shall be truthful, clear and complete, so as not to be misleading or deceptive.

In any event, the content and dissemination of Inside Information shall comply with the provisions of the securities market regulations applicable from time to time.

In order to ensure that Inside Information is conveyed to the market in a symmetrical and equitable manner, Covered Persons and persons included in the Insider Lists shall refrain from providing analysts, shareholders, investors or the press with information whose content is considered Inside Information, which has not previously or simultaneously been provided to the market at large.

When a subsequent event or decision occurs which is significant and which is the cause, consequence or continuation of, involves a change or rectification of, or in any way completes, alters or terminates the Inside Information initially communicated, a new communication must be immediately disseminated to the market in the same manner, clearly identifying the original communication which, as the case may be, is altered, completed or rectified and in which aspects it does so, without this in any case entailing the replacement of the original communication by the new one.

6.7 Delay in public disclosure of Inside Information

The Company may, on its own responsibility, delay the public disclosure of Inside Information provided that (i) immediate disclosure would prejudice the legitimate interests of the Company; (ii) the delay in disclosure would not be likely to cause confusion or deception to the public; and (iii) the Company is able to ensure the confidentiality of the information.

The Company may also delay under its own responsibility the public disclosure of Inside Information relating to a protracted, multi-stage process intended to create or resulting in certain circumstances or a specific event.

In the event that the dissemination of Inside Information is delayed, the Company must inform the CNMV of the decision to delay its dissemination, in accordance with the terms established by law, immediately after it is made public. However, the Company shall only send the justification of the existence of the conditions allowing such delay when the CNMV expressly requests it.

7. RULES OF CONDUCT IN RELATION TO RELEVANT INFORMATION

FCC shall notify the CNMV as "Other Relevant Information", and shall also publish on its website, the Relevant Information relating to the Company itself, to the FCC Group or to the Affected Securities and Instruments. This communication shall be made simultaneously with its dissemination by any other means.

The content of such communications shall be truthful, clear, complete and, where required by the nature of the information, quantified so as not to be misleading or deceptive.

The communication of Relevant Information shall be made by the persons authorised to sign electronically and to use the CIFRADO/CNMV system, as well as to make telematic communications to the CNMV.

The content of the Relevant Information disseminated to the market through any communication or information channel other than the CNMV must be consistent with that previously communicated to the CNMV, without any discrepancy between them.

The Company may, under its own responsibility, delay the publication and dissemination of Material Information where it considers that the information would prejudice its legitimate interests, provided that such omission is not likely to mislead the public and that the Company can ensure the confidentiality of such information.

8. TREASURY STOCK TRANSACTIONS

Treasury share transactions shall always have legitimate purposes, such as, inter alia, to provide investors with adequate liquidity and depth in the trading of the Company's shares, to stabilise the share price following a public offering or subscription of shares through the lending by the Company of treasury shares and the granting to the underwriters of the transaction of an option to purchase or subscribe for shares, to implement programmes for the purchase of treasury shares approved by the Board of Directors under the relevant authorisation of the General Meeting of Shareholders, to meet legitimate commitments previously entered into or for any other purposes admissible under the applicable regulations. The CNMV shall be notified of any specific plans for the acquisition or disposal of treasury shares if required to do so under the legislation in force from time to time.

Under no circumstances shall treasury stock transactions of FCC Group companies be carried out on the basis of Inside Information.

The management of treasury shares will be carried out with full transparency in relations with supervisors and market regulators.

The Capital Markets Department, as the body in charge of conducting treasury stock transactions, shall carry out the following functions:

- a) Appoint the person responsible for treasury stock management, who shall report monthly to the Audit and Compliance Committee on trading in the Company's own shares and financial instruments and contracts of any kind traded on organised secondary markets that grant the right to acquire or whose underlying is the aforementioned shares.
- b) Manage treasury shares in accordance with the provisions of this section.
- c) Monitor the evolution of the Company's share price on the markets.
- d) Maintain an archive of all treasury share transactions ordered and carried out.
- e) Through the person in charge of treasury stock management, report to the CNMV on transactions carried out with treasury stock in compliance with the applicable regulations and the liquidity contract that the Company has entered into or will enter into with a market member.

The Company shall endeavour to ensure that the management of treasury shares is kept separate from its other activities and that treasury share transactions are avoided or reduced during the closed periods established by the applicable regulations. To this end, treasury stock managers shall undertake a special commitment to confidentiality in relation to such transactions.

Treasury Share Managers shall refrain from using the corporate resources of the Company to carry out transactions for their own account in any securities or financial instruments, including the Affected Securities and Instruments.

Treasury Share Managers shall refrain from trading in Affected Securities and Instruments for their own account in anticipation of the Company's forthcoming action on their own shares, as well as from engaging in any other transactions that constitute a use for their own benefit of information obtained as a result of their participation in the management of the Company's treasury shares.

9. MONITORING COMMITTEE

The body responsible for the application, interpretation and monitoring of compliance with the provisions contemplated in the Internal Code of Conduct shall be a Committee called the Internal Code of Conduct Monitoring Committee, which shall be composed of the General Secretary of FCC (acting as Chairman), the General Manager of Legal Services and the Director of Coordination and Control of Legal Services (acting as Secretary), **as** well as such additional persons as the Monitoring Committee itself may designate to collaborate with it.

In particular, the Monitoring Committee shall exercise the following functions:

- a) Propose the measures it deems appropriate for the control of information flows and, in general, for due compliance in the FCC Group organisation with the Internal Code of Conduct and the principles that inspire it, promoting the establishment and adoption of complementary procedures and rules for this purpose.
- b) Receive from the Persons Subject to the Internal Code of Conduct the communications and information provided for in the Internal Code of Conduct, file them in an orderly fashion and safeguard them in an appropriate manner.
- c) Maintain and update the Lists of Insiders in accordance with the provisions of the Internal Rules of Conduct.
- d) Without prejudice to the register of Insiders mentioned above, maintain a list of persons who have access to Inside Information and design the necessary procedures for its permanent updating.
- e) To grant, where appropriate, the authorisations provided for in the Internal Regulations for Conduct and to keep an adequate record of the authorisations granted.
- f) Inform the Board of Directors, its Executive Committee, the Audit and Compliance Committee or the Appointments and Remuneration Committee of any relevant incidents arising in relation to compliance with the provisions of the Internal Code of Conduct. In any case, at least once (1) a year, it must report in general terms on compliance with the Internal Code of Conduct.
- g) Carry out any other duties assigned to him/her in accordance with the provisions of the Internal Rules of Conduct.

The persons constituting the Monitoring Committee and their collaborators are obliged to guarantee the strict confidentiality of all transactions of which they become aware in the exercise of the functions entrusted to them by virtue of the Internal Regulations of Conduct. The same duty of confidentiality shall apply to the members of the Board of Directors, in the event that they become aware of them.

The Board of Directors of FCC may, at any time, designate other persons to carry out the functions contemplated herein, carrying out, if necessary, the appropriate modification of the Internal Code of Conduct.

10. NON-COMPLIANCE

Failure to comply with the provisions of the Internal Code of Conduct shall be considered a misconduct, the seriousness of which shall be determined in the procedure followed in accordance with the provisions in force. Non-compliance by persons affected by the Regulations who have an employment contract with FCC and/or any of the Subsidiaries shall be considered an employment offence.

The foregoing shall be understood without prejudice to the liability that may arise from the provisions of the Securities Markets Act and the civil or criminal liability that may be demanded of the defaulting party in each case.

ANNEX III
MODEL NOTIFICATION TO CLOSELY ASSOCIATED PERSONS

Dear[•] [•]:

In compliance with current legal regulations and in accordance with the provisions of the *Internal Code of Conduct in the Securities Market of Fomento de Construcciones y Contratas, S.A. and its group of companies* (the "**Internal Code of Conduct**") of Fomento Construcciones y Contratas, S.A. ("FCC" or the "Company"). ("**FCC**" or the "**Company**"), you are hereby notified that, by virtue of [•] [a relationship will be included whereby the addressee is considered a Closely Associated Person] with [•] [name and surname of the Person with Related Management Responsibilities will be included] you are a Closely Associated Person ("**Closely Associated Person**") for the purposes of the aforementioned regulations and the Internal Code of Conduct.

As a Closely Connected Person, it is therefore subject to the regime and obligations that Law 6/2023 of 17 March on Securities Markets and Investment Services (the "**Securities Markets Law**"), Regulation (EU) No. 596/2014 of the European Parliament and of the Council of 16 April 2014 on market abuse (the "**Market Abuse Regulation**") and its implementing regulations provide for those persons who meet the aforementioned status of Closely Connected Person.

In particular, Closely Connected Persons shall be subject to the regime for conducting transactions and the duty of disclosure provided for in Article 19 of the Market Abuse Regulation, and which is set out in the Internal Rules of Conduct.

On the other hand, the relationship that links the Persons Closely Associated with the Persons with Managerial Responsibilities, and by which they are attributed this status, exposes them in a particularly intense manner to the possibility of being recipients of Inside Information (as this concept is defined in the Market Abuse Regulation) and, in this sense, it is reported that:

- i. The improper use of the Inside Information to which it may have access, as well as the failure to comply with the other obligations set forth in the Market Abuse Regulation, could constitute an offence under article 297 of the Securities Markets Law or an offence of insider trading in the stock market under article 285 of Organic Law 10/1995 of 23 November 1995 of the Criminal Code (the "**Criminal Code**").
- ii. The improper use of Inside Information, as well as non-compliance with the other obligations set out in the Market Abuse Regulation, may be punishable under articles 312 and 313 of the Securities Markets Law and article 285 of the Criminal Code, with fines, public reprimands, removal from office and imprisonment.
- iii. The improper use of Inside Information, as well as failure to comply with the other obligations set out in the Market Abuse Regulation may be sanctioned in the manner set out in article 30 of the Market Abuse Regulation and its implementing regulations.

In accordance with the provisions of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 and Organic Law 3/2018 of 5 December on the Protection of Personal Data and Guarantee of Digital Rights, the undersigned declares that he/she has been informed that his/her personal data collected in this declaration and subsequently provided on the occasion of the communications made in compliance with the Internal Code of Conduct will be processed under the responsibility of FCC, for the purpose of the execution and control of the provisions of the Internal Code of Conduct and the fulfilment of legal obligations. The processing is necessary for these purposes and its legal basis is compliance with legal obligations.

The undersigned has been informed that his/her personal data may be communicated to public bodies such as, for example, the National Securities Market Commission (CNMV), in order to comply with FCC's legal obligations, and that your personal data will be kept for as long as you maintain your status as a Closely Associated Person (as this concept is defined in the Market Abuse Regulation

and in the Internal Code of Conduct) by decision of FCC's Monitoring Committee and that, after this period, it will be kept until the statute of limitations for possible legal action has elapsed.

Likewise, you declare that you have been informed of the possibility of exercising your rights of access, rectification, deletion, limitation, portability or opposition, on the basis of the provisions of the legislation in force in this regard, by contacting FCC in writing. Furthermore, he/she declares that he/she has been informed of his/her right to file a complaint with the Spanish Data Protection Agency (AEPD).

Finally, in order to facilitate compliance with the aforementioned regulations and with the provisions of the Internal Code of Conduct, the purpose of which is, inter alia, to regulate the rules of conduct to be observed by Closely Associated Persons in their actions related to the securities market, in accordance with the provisions of the Market Abuse Regulation, the Securities Markets Act and related provisions, a copy of the Internal Code of Conduct is attached hereto.
